AUFSTELLUNG

5-10x Hound of Morkai

Equipped with: Morkai bolt pistol, Morkai combat knife

ABILITIES

Attached Unit

If a CHARACTER unit from your army with the Leader ability can be attached to a REIVER SQUAD, it can instead be attached to this unit.

Invulnerable Save

Models in this unit have a 6+ invulnerable save. This invulnerable save is improved to 4+ against Psychic Attacks.

Morkai's Howl

In your Shooting phase, you can select one enemy unit within 12" of this unit (if a LIEUTENANT IN REIVER ARMOUR is leading this unit, you can select one enemy unit within 18" instead). That unit must take a Battle-shock test, subtracting 1 from the result if it is a PSYKER unit. If that test is failed, in addition to being Battle-shocked, that unit is Stunned until the start of your next Shooting phase. While a unit is Stunned, each time a model in that unit makes a Psychic Attack, subtract 1 from the Hit roll.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

PISTOL

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding **MONSTER/VEHICLE** models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

PRECISION

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more **CHARACTER** models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible **CHARACTER** models. If they do, until those attacks are resolved, or until that **CHARACTER** group is destroyed (whichever happens first), that **CHARACTER** group is the current allocation group.

CORE RULES

◆ Scouts 6"

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
- If that unit is wholly within your deployment zone, it can make a scout move.
- If that unit is embarked within a **DEDICATED TRANSPORT** that is wholly within your deployment zone, and if every model embarked within that **DEDICATED TRANSPORT** has the Scouts ability, that **DEDICATED TRANSPORT** can make a scout move.
