AUFSTELLUNG

1x Chaos Thunderhawk [Legends]

Equipped with: Hellstrike missile array, Lascannon, Thunderhawk heavy cannon, Turbo-laser destructor, Twin heavy bolter, Armoured hull

Wargear Options:

- This model can replace its Thunderhawk cluster bombs with Hellstrike missile array.
- This model can replace its Thunderhawk heavy cannon with Turbo-laser destructor.

ABILITIES

Aerial Assault

Each time a unit with the Deep Strike ability disembarks from this model after it has made a Normal move, that unit is still eligible to declare a charge this turn.

Damaged: 1-10 wounds remaining

While this model has 1-10 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

Thunderhawk cluster bombs

Each time the bearer ends a Normal move, you can select one enemy unit it moved over during that move and roll six D6: for each 3+, that unit suffers 1 mortal wound.

Chaos Thunderhawk (Transport)

Capacity: This model has a transport capacity of 30 <FACTION> INFANTRY or <FACTION> MOUNTED models. Each JUMP PACK, POSSESSED and TERMINATOR model takes up the space of 2 models. Each OBLITERATOR model takes up the space of 3 models. Each MOUNTED model takes up the space of 4 models.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◇ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Hover

Each time this unit takes to the skies (21.03), do not subtract 2" from the maximum distance.
