AUFSTELLUNG

5-10x Lychguard (32mm)

Equipped with: Hyperphase sword, Warscythe

Wargear Options:

- Each Lychguard can replace its Warscythe with Hyperphase sword and dispersion shield.

ABILITIES

Dispersion Shield

The bearer has a 4+ invulnerable save.

Guardian Protocols

While a NOBLE model is leading this unit, each time an attack targets this unit, if the Strength characteristic of that attack is greater than the Toughness characteristic of this unit, subtract 1 from the Wound roll.

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a **DEVASTATING WOUNDS** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **DEVASTATING WOUNDS** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **DEVASTATING WOUNDS** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

CORE RULES

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.
