FRAKTIONSREGELN

CULT AMBUSH

If your Army Faction is GENESTEALER CULTS, you start the battle with a number of Resurgence points, depending on the battle size, as shown below.

- Incursion: 6 Resurgence points
- Strike Force: 10 Resurgence points
- Onslaught: 14 Resurgence points

Each time a unit from your army is destroyed, if every model (excluding

CHARACTER models) in that unit has this ability you can spend the relevant number of Resurgence points shown below based on that unit's Starting Strength (not including attached CHARACTER models).

---Aberrants---

5 models = 4 Resurgence Points

10 models = 8 Resurgence Points

---Acolyte Hybrids with Autopistols, Acolyte Hybrids with Hand Flamers, Hybrid Metamorphs---

5 models = 2 Resurgence Points

10 models = 4 Resurgence Points

---Atalan Jackals---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

---Neophyte Hybrids---

10 models = 3 Resurgence Points

20 models = 6 Resurgence Points

---Purestrain Genestealers---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

If you do:

- Add a new unit to your army identical to your destroyed unit (excluding CHARACTER models), in Cult Ambush, at its Starting Strength, with all of its wounds remaining and any [ONE SHOT] weapons those models are equipped with considered as not having been shot.
- Place one Cult Ambush marker (see below) anywhere on the battlefield that is more than 8" horizontally away from all enemy units (if this is not possible, no marker is placed).

UNITS IN CULT AMBUSH

Cult Ambush is a type of Strategic Reserves. Units in Cult Ambush cannot be targeted with the Rapid Ingress Stratagem, but can be set up on the battlefield using a Cult Ambush marker as described below, or by following the rules for Strategic Reserves in a subsequent turn. Units in Cult Ambush are not automatically destroyed at the end of the third battle round.

CULT AMBUSH MARKERS

Use a circular 32mm diameter marker for Cult Ambush markers. If an enemy model (excluding AIRCRAFT) ends any kind of move within 8" of a Cult Ambush marker you placed, that Cult Ambush marker is removed from the battlefield. At the end of your opponent's next Movement phase, for each of your Cult Ambush markers still on the battlefield, you can select one unit from your army that is in Cult Ambush to make an ingress move. For that ingress move, set that unit up with at least one model in that unit in base contact with that Cult Ambush marker and all other models placed wholly within 3" of that Cult Ambush marker (that Cult Ambush marker is then removed from the battlefield). Units in Cult Ambush can make an ingress move in the first battle round using this rule.

ABILITIES

- Crossfire**
in your Shooting phase, after this unit has shot, select one enemy unit hit by one or more of those attacks. Until the end of the turn, each time a friendly Genestealer Cults unit makes an attack that targets that enemy unit, improve the Armour Penetration characteristic of that attack by 1. The same enemy unit can only be affected by this ability once per turn.
- Flare Launcher**
The bearer's unit has the SMOKE keyword and you can target it with the Smokescreen Stratagem for OCP.
- Spotter**
The bearer's ranged weapons have a Ballistic Skill characteristic of 3+.
- Survey Augur**
Each time the bearer's unit has shot, select one enemy unit that was hit by one or more attacks made by the bearer this phase. Until the end of the phase, each time a friendly GENESTEALER CULTS model makes an attack against that unit, that attack has the **[IGNORES COVER]** ability.

WEAPON ABILITIES

- Blast**
Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.
*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*
- Ignores Cover**
Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

CORE RULES

Deadly Demise 1

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Scouts 9"

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
- If that unit is wholly within your deployment zone, it can make a scout move.
- If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

WEAPON ABILITIES

- Anti**
This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.
Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.
- Pistol**

 - If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
 - If that unit is wholly within your deployment zone, it can make a scout move.
 - If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

Once per battle round, in your Movement phase, when this unit ends a Normal, Advance, or Fall Back move, you can select one enemy unit within 6" of and visible to this unit and roll one D6 for each ATALAN JACKALS model in this unit: for each 4+, that enemy unit suffers 1 mortal wound (to a maximum of 6 mortal wounds.)
- Outrider Gangs**
Each time you use the Cult Ambush ability to set this unit back up on the battlefield, in addition to the normal rules, all of its models must be set up wholly within 9" of a battlefield edge and at least one of its models must be touching one of your Cult Ambush markers (that marker is then removed from the battlefield). If this cannot be done, this unit cannot be set back up.

WEAPON ABILITIES

- Assault**
Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).
- Blast**
Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.
Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.
Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

FACTION RULES

Cult Ambush

If your Army Faction is GENESTEALER CULTS, you start the battle with a number of Resurgence points, depending on the battle size, as shown below.

- Incursion: 6 Resurgence points
- Strike Force: 10 Resurgence points
- Onslaught: 14 Resurgence points

Each time a unit from your army is destroyed, if every model (excluding CHARACTER models) in that unit has this ability you can spend the relevant number of Resurgence points shown below based on that unit's Starting Strength (not including attached CHARACTER models).

---Aberrants---

5 models = 4 Resurgence Points

10 models = 8 Resurgence Points

---Acolyte Hybrids with Autopistols, Acolyte Hybrids with Hand Flamers, Hybrid Metamorphs---

5 models = 2 Resurgence Points

10 models = 4 Resurgence Points

---Atalan Jackals---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

---Neophyte Hybrids---

10 models = 3 Resurgence Points

20 models = 6 Resurgence Points

---Purestrain Genestealers---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

If you do:

- Add a new unit to your army identical to your destroyed unit (excluding CHARACTER models), in Cult Ambush, at its Starting Strength, with all of its wounds remaining and any [ONE SHOT] weapons those models are equipped with considered as not having been shot.
- Place one Cult Ambush marker (see below) anywhere on the battlefield that is more than 8" horizontally away from all enemy units (if this is not possible, no marker is placed).

UNITS IN CULT AMBUSH

Cult Ambush is a type of Strategic Reserves. Units in Cult Ambush cannot be targeted with the Rapid Ingress Stratagem, but can be set up on the battlefield using a Cult Ambush marker as described below, or by following the rules for Strategic Reserves in a subsequent turn. Units in Cult Ambush are not automatically destroyed at the end of the third battle round.

CULT AMBUSH MARKERS

Use a circular 32mm diameter marker for Cult Ambush markers. If an enemy model (excluding AIRCRAFT) ends any kind of move within 8" of a Cult Ambush marker you placed, that Cult Ambush marker is removed from the battlefield. At the end of your opponent's next Movement phase, for each of your Cult Ambush markers still on the battlefield, you can select one unit from your army that is in Cult Ambush to make an ingress move. For that ingress move, set that unit up with at least one model in that unit in base contact with that Cult Ambush marker and all other models placed wholly within 3" of that Cult Ambush marker (that Cult Ambush marker is then removed from the battlefield). Units in Cult Ambush can make an ingress move in the first battle round using this rule.

WEAPON ABILITIES

- Anti**
This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.
*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*
- Lethal Hits**

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

WEAPON ABILITIES

Anti
This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Assault
Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

Blast
Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Devastating Wounds
Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Extra Attacks
Each time a unit containing one or more models with an [EXTRA ATTACKS] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [EXTRA ATTACKS] weapons.
- One of that model's other melee weapons, if possible.

Hazardous
Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

Heavy
In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Ignores Cover
Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

A Character created using Crucible rules has the Crucible ability. Your army may include up to three units with the Crucible ability and these units cannot be given Enhancements.
- Deep Strike**
Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.
- Infiltrators**
During deployment, if every model in a unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from your opponent's deployment zone and all enemy units.
- Leader**
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
- Lone Operative**
Unless part of an attached unit, this unit is not visible to enemy models unless they are within 12" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within 12" of this unit.
If this ability takes the form Lone Operative X", unless part of an attached unit, this unit is not visible to enemy models unless they are within X" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within X" of this unit.
- Scouts 9"**
This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:
 - If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
 - If that unit is wholly within your deployment zone, it can make a scout move.
 - If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

ABILITIES

CORE - Leader

- Blessed Venom**
Melee weapons equipped by models in this unit have the [ANTI-INFANTRY 3+] ability
- Cult Demagogue**
While this model is leading a unit, each time a model in that unit makes an attack, you can re-roll the Hit roll.
- Dirtcycle**
Change this model's Move characteristic to 12", its Toughness characteristic to 4, remove the Infantry keyword, and add the Mounted keyword. Remove the Deep Strike and Infiltrators abilities (if applicable), it gains the Scouts 9" and Stealth abilities, and replace the list of units this model can be attached to: Atalan Jackals.
- Elusive**
Once per turn, when an enemy unit ends a Normal, Advance or Fall Back move within 9" of this model, if this model is not within Engagement Range of one or more enemy units, it can make a Normal move of up to 6".
- Insidious Evasion**
At the end of your opponent's Fight phase, if this unit is not within Engagement Range of any enemy units, once per battle, you may remove this unit from the battlefield and place it into Strategic Reserves.
- Psychic Spoor**
At the start of the first battle round, select one enemy unit to be this model's prey. Each time this model makes an attack that targets it prey, you can re-roll the Hit roll and you can re-roll the Wound roll.
- Shadow Killer**
If this model is no part of an Attached unit and if this model is equipped with no ranged weapons (excluding pistols), enemy units cannot use the Fire Overwatch Stratagem to shoot at this model.
- Shepherd of the Blessed**
Replace the list of units this model can be attached to: Aberrants.
- Spiritual Leader**
Once per battle, at the start of any phase, you can select one friendly Genestealer Cults unit that is Battle-shocked and within 12" of this model. That unit is no longer Battle-shocked.

Twisted Science
While this model is leading a unit, melee weapons equipped by models in that unit have the [LETHAL HITS] ability.

Voice of New Truths
In your Command phase, one model from your army with this ability can use it. If it does, select one enemy unit within 18" of it; that enemy unit must take a Battle-shock test.

Leader
This model can be attached to the following units:

- Acolyte Hybrids with Hand Flamers
- Acolyte Hybrids with Autopistols
- Hybrid Metamorphs
- Neophyte Hybrids

WEAPON ABILITIES

Anti
This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Assault
Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

Blast
Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Devastating Wounds
Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Extra Attacks
Each time a unit containing one or more models with an [EXTRA ATTACKS] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [EXTRA ATTACKS] weapons.
- One of that model's other melee weapons, if possible.

Hazardous
Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

Heavy
In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Ignores Cover
Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Indirect Fire
Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).

- Pistol

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

 - One or more of its [CLOSE-QUARTERS] weapons.
 - One or more of its other ranged weapons.
- Precision

While resolving attacks made with one or more [PRECISION] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.
- Psychic

Each time an attack is made with a [PSYCHIC] weapon, you can ignore any or all modifiers to that attack's BS or WS characteristic and any or all modifiers to the hit roll. Attacks made with [PSYCHIC] weapons are known as **psychic** attacks (this can be important for the triggering of other rules).
- Rapid Fire

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).
- Torrent

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. FACTION RULES

Cult Ambush

If your Army Faction is GENESTEALER CULTS, you start the battle with a number of Resurgence points, depending on the battle size, as shown below.

- Incursion: 6 Resurgence points
- Strike Force: 10 Resurgence points
- Onslaught: 14 Resurgence points

Each time a unit from your army is destroyed, if every model (excluding CHARACTER models) in that unit has this ability you can spend the relevant number of Resurgence points shown below based on that unit's Starting Strength (not including attached CHARACTER models).

---Aberrants---

5 models = 4 Resurgence Points

10 models = 8 Resurgence Points

---Acolyte Hybrids with Autopistols, Acolyte Hybrids with Hand Flamers, Hybrid Metamorphs---

5 models = 2 Resurgence Points

10 models = 4 Resurgence Points

---Atalan Jackals---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

---Neophyte Hybrids---

10 models = 3 Resurgence Points

20 models = 6 Resurgence Points

---Purestrain Genestealers---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

If you do:

- Add a new unit to your army identical to your destroyed unit (excluding CHARACTER models), in Cult Ambush, at its Starting Strength, with all of its wounds remaining and any [ONE SHOT] weapons those models are equipped with considered as not having been shot.
- Place one Cult Ambush marker (see below) anywhere on the battlefield that is more than 8" horizontally away from all enemy units (if this is not possible, no marker is placed).

UNITS IN CULT AMBUSH

Cult Ambush is a type of Strategic Reserves. Units in Cult Ambush cannot be targeted with the Rapid Ingress Stratagem, but can be set up on the battlefield using a Cult Ambush marker as described below, or by following the rules for Strategic Reserves in a subsequent turn. Units in Cult Ambush are not automatically destroyed at the end of the third battle round.

CULT AMBUSH MARKERS

Use a circular 32mm diameter marker for Cult Ambush markers. If an enemy model (excluding AIRCRAFT) ends any kind of move within 8" of a Cult Ambush marker you placed, that Cult Ambush marker is removed from the battlefield. At the end of your opponent's next Movement phase, for each of your Cult Ambush markers still on the battlefield, you can select one unit from your army that is in Cult Ambush to make an ingress move. For that ingress move, set that unit up with at least one model in that unit in base contact with that Cult Ambush marker and all other models placed wholly within 3" of that Cult Ambush marker (that Cult Ambush marker is then removed from the battlefield). Units in Cult Ambush can make an ingress move in the first battle round using this rule.

In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.
Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:
- One or more of its [CLOSE-QUARTERS] weapons.

- Hypersensory Abilities**
Once per turn, in your opponent's Movement phase, when an enemy unit ends a Normal, Advance or Fall Back move within 8" of this model, if this model is not within Engagement Range of one or more enemy units, it can shoot at that unit as if it were your Shooting phase and then make a Normal move of up to D6" (it cannot embark within a Transport as part of this move).

Each time a unit from your army is destroyed, if every model (excluding CHARACTER models) in that unit has this ability you can spend the relevant number of Resurgence points shown below based on that unit's Starting Strength (not including attached CHARACTER models).

---Aberrants---

5 models = 4 Resurgence Points

10 models = 8 Resurgence Points

10 models = 3 Resurgence Points

20 models = 6 Resurgence Points

---Purestrain Genestealers---

5 models = 2 Resurgence Points

10 models = 6 Resurgence Points

If you do:

- Add a new unit to your army identical to your destroyed unit (excluding CHARACTER models), in Cult Ambush, at its Starting Strength, with all of its wounds remaining and any [ONE SHOT] weapons those models are equipped with considered as not having been shot.
- Place one Cult Ambush marker (see below) anywhere on the battlefield that is more than 8" horizontally away from all enemy units (if this is not possible, no marker is placed).

UNITS IN CULT AMBUSH

Cult Ambush is a type of Strategic Reserves. Units in Cult Ambush cannot be targeted with the Rapid Ingress Stratagem, but can be set up on the battlefield using a Cult Ambush marker as described below, or by following the rules for Strategic Reserves in a subsequent turn. CULT AMBUSH MARKERS

Use a circular 32mm diameter marker for Cult Ambush markers. At the end of your opponent's next Movement phase, for each of your Cult Ambush markers still on the battlefield, you can select one unit from your army that is in Cult Ambush to make an ingress move. - One or more of its [CLOSE-QUARTERS] weapons.
 - One or more of its other ranged weapons.

FACTION RULES

Cult Ambush
If your Army Faction is GENESTEALER CULTS, you start the battle with a number of Resurgence points, depending on the battle size, as shown below.

- Incursion: 6 Resurgence points
- Strike Force: 10 Resurgence points
- Onslaught: 14 Resurgence points

Each time a unit from your army is destroyed, if every model (excluding CHARACTER models) in that unit has this ability you can spend the relevant number of Resurgence points shown below based on that unit's Starting Strength (not including attached CHARACTER models).

---Aberrants---

5 models = 4 Resurgence Points
10 models = 8 Resurgence Points

---Acolyte Hybrids with Autopistols, Acolyte Hybrids with Hand Flamers, Hybrid Metamorphs---

5 models = 2 Resurgence Points
10 models = 4 Resurgence Points

---Atalan Jackals---

5 models = 2 Resurgence Points
10 models = 6 Resurgence Points

---Neophyte Hybrids---

10 models = 3 Resurgence Points
20 models = 6 Resurgence Points

---Purestrain Genestealers---

5 models = 2 Resurgence Points
10 models = 6 Resurgence Points

If you do:

- Add a new unit to your army identical to your destroyed unit (excluding CHARACTER models), in Cult Ambush, at its Starting Strength, with all of its wounds remaining and any [ONE SHOT] weapons those models are equipped with considered as not having been shot.
- Place one Cult Ambush marker (see below) anywhere on the battlefield that is more than 8" horizontally away from all enemy units (if this is not possible, no marker is placed).

UNITS IN CULT AMBUSH

Cult Ambush is a type of Strategic Reserves. Units in Cult Ambush cannot be targeted with the Rapid Ingress Stratagem, but can be set up on the battlefield using a Cult Ambush marker as described below, or by following the rules for Strategic Reserves in a subsequent turn. Units in Cult Ambush are not automatically destroyed at the end of the third battle round.

CULT AMBUSH MARKERS

Use a circular 32mm diameter marker for Cult Ambush markers. If an enemy model (excluding AIRCRAFT) ends any kind of move within 8" of a Cult Ambush marker you placed, that Cult Ambush marker is removed from the battlefield. At the end of your opponent's next Movement phase, for each of your Cult Ambush markers still on the battlefield, you can select one unit from your army that is in Cult Ambush to make an ingress move. For that ingress move, set that unit up with at least one model in that unit in base contact with that Cult Ambush marker and all other models placed wholly within 3" of that Cult Ambush marker (that Cult Ambush marker is then removed from the battlefield). Units in Cult Ambush can make an ingress move in the first battle round using this rule.

WEAPON ABILITIES

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.
Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:
 - That unit is unengaged.
 - That unit was not set up on the battlefield this turn.
 - No model in that unit has moved more than 3" this turn.
- Precision**
While resolving attacks made with one or more [PRECISION] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. While an enemy unit is only within Engagement Range of one or more FORTIFICATION from your army:

 - That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll.
 - Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.
- Manufactorum Cover**

Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this FORTIFICATION, that model has the Benefit of Cover against that attack.
- Tectonic Fragdrill**

Friendly Genestealer Cult Infantry models can be set up or end any type of move on top of the floor sections of this Fortification.
- Underground Egress**

Each time one of your Cult Ambush markers is removed as the result of an enemy unit ending any kind of move within 8" of it, you can instead move that marker so that it is wholly within 8" of this Fortification and more than 8" horizontally away from all enemy units (if this is not possible, that marker is removed as normal).

CORE RULES

- Deadly Demise D3**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Twisted Science

While this model is leading a unit, melee weapons equipped by models in that unit have the **[LETHAL HITS]** ability.

In your Command phase, one model from your army with this ability can use it. If it does, select one enemy unit within 18" of it; that enemy unit must take a Battle-shock test.

Leader

This model can be attached to the following units:

- Acolyte Hybrids with Hand Flamers
- Acolyte Hybrids with Autopistols
- Hybrid Metamorphs
- Neophyte Hybrids

WEAPON ABILITIES

Anti

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

Assault

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

Blast

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Devastating Wounds

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Extra Attacks

Each time a unit containing one or more models with an **[EXTRA ATTACKS]** weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's **[EXTRA ATTACKS]** weapons.
- One of that model's other melee weapons, if possible.

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

Heavy

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

Ignores Cover

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Indirect Fire

Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).

Lethal Hits

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

Pistol

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding **MONSTER/VEHICLE** models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

Precision

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more **CHARACTER** models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible **CHARACTER** models. If they do, until those attacks are resolved, or until that **CHARACTER** group is destroyed (whichever happens first), that **CHARACTER** group is the current allocation group.

Psychic

Each time an attack is made with a **[PSYCHIC]** weapon, you can ignore any or all modifiers to that attack's BS or WS characteristic and any or all modifiers to the hit roll. Attacks made with **[PSYCHIC]** weapons are known as **psychic** attacks (this can be important for the triggering of other rules).

Rapid Fire

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

Torrent

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

CORE RULES

Crucible

A Character created using Crucible rules has the Crucible ability. Your army may include up to three units with the Crucible ability and these units cannot be given Enhancements.

Deep Strike

That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

Scouts 9"

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
- If that unit is wholly within your deployment zone, it can make a scout move.
- If that unit is embarked within a **DEDICATED TRANSPORT** that is wholly within your deployment zone, and if every model embarked within that **DEDICATED TRANSPORT** has the Scouts ability, that **DEDICATED TRANSPORT** can make a scout move.
