BONDSMAN

Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

Mysterious Guardian

35 pts

Imperial Knights model only. (Once per battle, per army) At the end of your opponent's turn, if this unit is unengaged, you can use this ability. If you do:

- Place this unit in strategic reserves.
 - This unit has Deep Strike until the start of your next Shooting phase.
 - This unit must make an ingress move in your next Movement phase (including in your first turn).
-

Bringer of Justice

GATE WARDEN LANCE

ENHANCEMENTS

Vengeful Tread

15 pts

Imperial Knights model only. Once per turn, you can target the bearer with the Tank Shock Stratagem for OCP.

Acquisitor-at-Arms

15 pts

Imperial Knights model only. While the bearer is on your defensive line and there are no enemy units on your defensive line, add the bearer's Objective Control characteristic to that of each model affected by the bearer's Bondsman ability.

Purgation's Hand

Imperial Knights model only. Each time the bearer makes a melee attack, if the bearer is on your defensive line, re-roll a Hit roll of 1 and re-roll a Wound roll of 1.

Augury Halo

20 pts

Imperial Knights model only. Each time the bearer makes a ranged attack, while the bearer is on your defensive line, weapons equipped by the bearer have the [IGNORES COVER] ability.

DETACHMENT-REGEL

At the start of the first battle round, select two objectives to be your foundations. Place a circular foundation marker in each one. When you draw a line from the closest part of one foundation marker to the closest part of the other, if any part of a model's base (or any part of a model's hull, for a model without a base) crosses that line, that model's unit is said to be on your defensive line.

While an IMPERIAL KNIGHTS unit from your army is on your defensive line, that unit has the Against the Horde ability.

QUESTOR FORGEPACT

ENHANCEMENTS

Magos Questoris

20 pts

TECH-PRIEST model only. When using this model's Sacristan Pledge ability, the selected IMPERIAL KNIGHTS model heals 2 additional wounds.

Knight of the Opus Machina (Aura)

15 pts

Friendly TECH-PRIEST models have the Sacristan Pledge ability:

QUESTORIS COMPANIONS

ENHANCEMENTS

Crushing Condemnation

10 pts

Imperial Knights model only. When the bearer is selected to fight, after resolving its attacks, if one or more enemy units were destroyed by those attacks, the bearer can use this Enhancement. If it does, this Enhancement is expended, then select one enemy unit that is not within Engagement Range of any units from your army and is within 12" of and visible to the bearer. Roll six D6: for each 4+, that enemy unit suffers 1 mortal wound.

Herald of Triumph

15 pts

Imperial Knights model only. When the bearer ends a Charge move, it can use this Enhancement. If it does, this Enhancement is expended, the each enemy unit within Engagement Range of the bearer must take a Battle-shock test, subtracting 1 from the result.

Wyrmslayer Divination

10 pts

Imperial Knights model only. In your Shooting phase, when the bearer is selected to shoot, it can use this Enhancement. If it does, this Enhancement is expended, then until the end of the phase, each time it makes an attack that targets a unit that can Fly, you can re-roll the Hit roll.

Pennant of Silvered Fury

15 pts

Imperial Knights model only. When the bearer is selected to fight, it can use this Enhancement. If it does, this Enhancement is expended, then until the end of the phase, melee equipped by the bearer have the [SUSTAINED HITS 2] ability.

DETACHMENT-REGEL

At the start of your turn, if your current Oath is fulfilled, determine an additional Oath, with the exception that you cannot select a Deed or Quality you have already selected (if you are randomly selecting the Deed and/or Quality and roll any result that you have already selected, select a Deed or Quality you have not already selected instead). If you cannot determine an additional Oath because you have already selected each Deed and each Quality, do not determine an additional Oath.

The Qualities from Oaths you have fulfilled continue to apply to all models in your army with the Code Chivalric ability. When the Deed for an additional Oath is completed, you instead gain 1CP, regardless of how you selected the Deed or Quality.

SPEARHEAD-AT-ARMS

ENHANCEMENTS

Martial Tuition

15 pts

Imperial Knights model only. While two or more Armiger models are under the effects of the bearer's Bondsman ability, once per turn, you can target one of those Armiger models with the Counter-offensive Stratagem for 0CP.

Mentor's Pride

20 pts

Imperial Knights model only. While two or more Armiger models are under the effects of the bearer's Bondsman ability, each time each of those Armiger models makes an attack, you can re-roll a Hit roll of 1.

Fables of Nightmare

10 pts

Imperial Knights model only. While two or more Armiger models are under the effects of the bearer's Bondsman ability, melee weapons equipped by those Armiger models have the [PRECISION] ability.

Tales of Heroism

10 pts

Imperial Knights model only. While two or more Armiger models are under the effects of the bearer's Bondsman ability, each time one of those Armiger models makes a melee attack, you can ignore any or all modifiers to the Hit roll and/or the Wound roll.

DETACHMENT-REGEL

Each time a model from your army uses its Bondsman ability, if no other model from your army has used that Bondsman ability that turn, you can select up to three friendly Armiger models (instead of one) within 12" of that model, or within 15" of that model while your army is Honoured (you still cannot select a model that is already being affected by a Bondsman ability). Until the start of your next Command phase, those models are affected by that Bondsman ability.

ENHANCEMENTS

Gyro-optimised Actuators

15 pts

ARMIGER unit only. This unit has MOBILE.

Ancestral Overbleed

10 pts

ARMIGER unit only. When you target this unit with the Fire Overwatch/Heroic Intervention stratagem, that use is -1 CP.

This detachment has the ARMIGERS tag and cannot be taken with another ARMIGERS detachment.

VALOURSTRIKE LANCE

ENHANCEMENTS

Bearer of the Iron Chalice

20 pts

Imperial Knights model only. At the end of your Movement phase, select one other Imperial Knights model from your army that is within 12" of and visible to the bearer. That selected model regains up to D3 lost wounds, or up to 3 lost wounds if your army is Honoured.

Bearer of the Evanescent Ion

Bearer of the Judicant's Helm

25 pts

Imperial Knights model only. At the start of your Shooting phase, select one other Imperial Knights model from your army that is within 12" of and visible to the bearer. Until the end of the phase, ranged weapons equipped by that selected model have the [IGNORES COVER] ability.

Bearer of the Lancer's Sigil

25 pts

Imperial Knights model only. At the start of your Charge phase, select one other Imperial Knights model from your army that is within 12" of and visible to the bearer. Until the end of the phase, you can re-roll Charge rolls made for that selected model.

DETACHMENT-REGEL

Each time an IMPERIAL KNIGHTS unit from your army Advances, until the end of the turn, ranged weapons equipped by IMPERIAL KNIGHTS models from your army have the [ASSAULT] ability.

ABILITIES

- Damaged: 1-10 Wounds Remaining**

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.
- Invulnerable Save (5+*)**

This model has a 5+ invulnerable save against ranged attacks.
- Sunderer of Fortresses**

Each time this model makes an attack that targets a VEHICLE, improve the Strength and Damage characteristics of that attack by 1. If that attack targets a FORTIFICATION, improve the Strength and Damage characteristics of that attack by 2 instead.

WEAPON ABILITIES

- Anti**

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.
- Blast**

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).
- Devastating Wounds**

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

- Ignores Cover**
Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).
- Indirect Fire**
Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).
- Sustained Hits**
This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*
- Twin-linked**
Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

- Deadly Demise 2D6**
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").
Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.
- Super-Heavy Walker**
Each time a unit with this ability makes a normal, advance or fall-back move:
- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
 - Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.
- Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).*

Lethal Hits
Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

Deadly Demise 2D6

WEAPON ABILITIES

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.
- Rapid Fire**
This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

- Sustained Hits**
This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).
- Torrent**
Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

CORE RULES

- Deadly Demise D3**
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").
Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

WEAPON ABILITIES

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.
*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Sustained Hits

Finally, the Impulsor is removed from the battlefield.

Lone Operative
Unless part of an attached unit, this unit is not visible to enemy models unless they are within 12" of this unit, and it cannot be targeted by **[INDIRECT FIRE]** weapons unless the attacking model is within 12" of this unit.

If this ability takes the form Lone Operative X", unless part of an attached unit, this unit is not visible to enemy models unless they are within X" of this unit, and it cannot be targeted by **[INDIRECT FIRE]** weapons unless the attacking model is within X" of this unit.

Super-Heavy Walker

- Before moving that unit, you can select for all models in that unit to have the **MOBILE** keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Macro-extinction Protocols

Each time this model makes an attack that targets a MONSTER or VEHICLE unit, add 1 to the Hit roll. If that target is TITANIC or TOWERING, add 1 to the Wound roll as well.

WEAPON ABILITIES

Blast

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Devastating Wounds

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Hazardous

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).

ABILITIES

- Damaged: 1-10 Wounds Remaining**

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.
- Invulnerable Save (5+*)**

This model has a 5+ invulnerable save against ranged attacks.
- Ion Aegis (Aura)**

While a friendly Armiger model is within 6" of this model, each time a ranged attack targets that model, it has the Benefit of Cover against that attack.
- Titan Hunter**

Each time a ranged attack made by this model is allocated to a Monster or Vehicle model, you can re-roll the Damage roll.

WEAPON ABILITIES

- Anti**

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*
- Blast**

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

Devastating Wounds
Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Hazardous
Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

Melta
This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

Twin-linked
Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

Deadly Demise D6+2
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Super-Heavy Walker
Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

- Rapid Fire**
This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.
*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*
- Twin-linked**
Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

FACTION RULES

- Bondsman**
Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

CORE RULES

- Deadly Demise D6**
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").
Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.
- Super-Heavy Walker**
Each time a unit with this ability makes a normal, advance or fall-back move:
 - Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
 - Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.*Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).*

- Gallant's Duty (Bondsman)**

While a model is affected by this ability, you can re-roll Charge rolls made for that model and each time that model makes a melee attack, you can re-roll the Hit roll.

This model has a 5+ invulnerable save against ranged attacks.

Each time this unit Consolidates, models in it can move an additional 3" provided your unit can end that move within Engagement Range of one or more enemy units.

WEAPON ABILITIES

- Anti**

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*
- Blast**

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Devastating Wounds

Indirect Fire

Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).

Lethal Hits

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

Melta

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).

ABILITIES

Damaged: 1-9 Wounds Remaining

While this model has 1-9 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Thin Their Ranks

Each time this model makes a ranged attack that targets an enemy unit (excluding Monsters and Vehicles), that attack has the [DEVASTATING WOUNDS] ability.

Warden's Duty (Bondsman)

While a model is affected by this ability, weapons equipped by that model have the [SUSTAINED HITS 1] ability, and ranged weapons equipped by that model have the [IGNORES COVER] ability.

WEAPON ABILITIES

Anti

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

Blast

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

Devastating Wounds
Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

Ignores Cover
Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Indirect Fire
Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).

Melta
This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

Rapid Fire
This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

Sustained Hits
This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

Torrent
Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

Twin-linked
Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

FACTION RULES

Bondsman
Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

CORE RULES

Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.
