ENHANCEMENTS

Artificer Armour

10 pts

ADEPTUS ASTARTES model only. The bearer has a Save characteristic of 2+ and the Feel No Pain 5+ ability.

The Honour Vehement

15 pts

ADEPTUS ASTARTES model only. Add 1 to the Attacks and Strength characteristics of the bearer's melee weapons. While the bearer is under the effects of the Assault Doctrine, add 2 to the Attacks and Strength characteristics of the bearers melee weapons instead.

Adept of the Codex

20 pts

CAPTAIN model only. At the start of your Command phase, if the bearer is on the battlefield, instead of selecting a Combat Doctrine to be active for your army, you can select the Tactical Doctrine. If you do, until the start of your next Command phase, that Combat Doctrine is active for the bearer's unit only, even if you have already selected that Combat Doctrine to be active for your army this battle.

Fire Discipline

25 pts

ADEPTUS ASTARTES model only. While the bearer is leading a unit, ranged weapons equipped by models in that unit have the [SUSTAINED HITS 1] ability. In addition, while the bearer's unit is under the effects of the Devastator Doctrine, you can reroll Advance rolls made for that unit.

DETACHMENT-REGEL

The Codex Astartes has proven its worth as a superb treatise on warfare over countless battlefields, and has remained so even after ten thousand years. Many Space Marines hold its wisdom in awe, and exemplify its teachings, employing a flexible set of combat doctrines to eliminate their enemy. Few opponents can withstand the fury of such an onslaught. At the start of your Command phase, you can select one of the Combat Doctrines listed below. Until the start of your next Command phase, that Combat Doctrine is active and its effects apply to all ADEPTUS ASTARTES units from your army. You can only select each Combat Doctrine once per battle.

Devastator Doctrine The Codex Astartes details the strategic value of overwhelming firepower applied to key targets while advancing into position to eliminate threats. This unit is eligible to shoot in a turn in which it Advanced.

Tactical Doctrine As the warring armies close upon one another and vicious fire-fights erupt, the Codex lays out strategies for swiftly seizing the initiative and combining versatility with firepower. This unit is eligible to shoot and declare a charge in a turn in which it Fell Back.

Assault Doctrine The Codex Astartes leaves no doubt that the killing blow in most engagements must be delivered with a decisive close-quarters strike. It presents plentiful tactical means to achieve this end. This unit is eligible to declare a charge in a turn in which it Advanced.

FIGHT

ONLY IN DEATH DOES DUTY END

When: Fight phase, just after an enemy unit has selected its targets.

Target: One ADEPTUS ASTARTES unit from your army that was selected as the target of one or more of the attacking unit's attacks.

Effect: Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, do not remove it from play. The destroyed model can fight after the attacking model's unit has finished making its attacks, and is then removed from play.

ANVIL SIEGE FORCE

ENHANCEMENTS

Indomitable Fury

20 pts

GRAVIS model only. The first time the bearer is destroyed, roll one D6 at the end of the phase. On a 2+, set the bearer back up on the battlefield, as close as possible to where it was destroyed and not within Engagement Range of any enemy units, with its full wounds remaining.

Fleet Commander

15 pts

CAPTAIN model only. Once per battle, at the start of your Shooting phase, you can select one point on the battlefield and place a marker on that point. At the start of your next Shooting phase, place another marker on the battlefield within 12" of the centre of the first marker, then draw a straight line between the centre of each of these markers. Roll one D6 for each unit that line passes over or through: on a 3+, that unit suffers D3 mortal wounds. Both markers are then removed.

Stoic Defender

15 pts

ADEPTUS ASTARTES model only. While the bearer is leading a unit, models in that unit have the Feel No Pain 6+ ability while they are within range of an objective marker you control and, while that unit is Battle-shocked, halve the Objective Control characteristic of models in that unit instead of changing it to 0.

Architect of War

25 pts

ADEPTUS ASTARTES model only. While the bearer is leading a unit, ranged weapons equipped by models in that unit have the [IGNORES COVER] ability.

DETACHMENT-REGEL

Shield of the Imperium Across blood-drenched battlefields, within towering citadels and isolated orbital stations, the Angels of Death throw back tides of traitors, mutants, xenos and heretics, and purge enemy holdings of foes thanks to their disciplined strategies and fighting skills. All who oppose them are met with volleys of deadly accurate firepower long before they reach the battle-brothers' razor-sharp blades. Ranged weapons equipped by ADEPTUS ASTARTES models from your army have the [HEAVY] ability. If such a weapon already has this ability, each time an attack is made with that weapon, if the attacking model's unit Remained Stationary this turn, add 1 to the Wound roll.

ADEPTUS ASTARTES VEHICLE model only. In your Shooting phase, while a friendly ADEPTUS ASTARTES VEHICLE unit is within 6" of the bearer, ranged weapons equipped by models in that unit have the [ASSAULT] ability.

DETACHMENT-REGEL

Target SightedSpace Marine crews are relentless in their pursuit of assigned targets, coaxing every last trace of power from their war machines and demonstrating exemplary gunnery even under heavy fire. Each time a TANK ACE unit from your army (see below) Advances, do not make an Advance roll for it. Instead, until the end of the phase, add 6" to the Move characteristic of models in that unit.

Each time a TANK ACE unit from your army shoots in your Shooting phase, if that unit did not Advance this turn, you can re-roll the Damage roll.

KEYWORDS

ADEPTUS ASTARTES VEHICLE units from your army (excluding FORTIFICATIONS, DROP PODS, WALKERS and units that can FLY) have the TANK ACE keyword.

In the Muster Armies step, you can select up to three TANK ACE units from your army to gain the CHARACTER keyword.

Designer's Note: This means that the selected units can be given Enhancements, and one of them can be selected as your WARLORD.

Mass of Doom

Each time this model's unit makes a Charge move, until the end of the turn, melee weapons equipped by models in that unit have the [DEVASTATING WOUNDS] ability.

Redeemer of the Lost

While this model is leading a unit, each time a model in that unit is destroyed by a melee attack, if that model has not fought this phase, roll one D6. On a 4+, do not remove it from play; that destroyed model can fight after the attacking model's unit has finished making its attacks, and is then removed from play.

Leader

This model can be attached to the following unit:

- Death Company Marines with Jump Packs

WEAPON ABILITIES

Devastating Wounds

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Precision

While resolving attacks made with one or more [PRECISION] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

CORE RULES

Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. ABILITIES

CORE - Leader

Fury Unbound
While this model is leading a unit, melee weapons equipped by models in that unit have the [LETHAL HITS] ability.

Guardian of the Lost
While this model is leading a unit, each time an attack is allocated to a model in that unit, subtract 1 from the Damage characteristic of that attack.

Leader
This model can be attached to the following unit:

- Death Company Marines with Jump Packs

WEAPON ABILITIES

Lethal Hits
Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.
Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

CORE RULES

Deep Strike
Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

Feel No Pain 6+
This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

Leader
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

ABILITIES

Shield of Sanguinius (Aura, Psychic)
While a friendly Adeptus Astartes unit is within 6" of this model, models in that unit have the Feel No Pain 5+ ability against mortal wounds and **Psychic** Attacks.

Wings of Sanguinius (Psychic)
Once per turn, at the end of your Movement phase, one Psyker from your army with this ability can use it. If it does, roll one D6: on a 1, that Psyker suffers D3 mortal wounds; on a 2+, select one friendly Adeptus Astartes Infantry unit within 12" of that Psyker and remove the selected unit from the battlefield, then set it up again anywhere on the battlefield that is more than 9" horizontally away from all enemy models.

WEAPON ABILITIES

Extra Attacks
Each time a unit containing one or more models with an **[EXTRA ATTACKS]** weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:
- All of that model's **[EXTRA ATTACKS]** weapons.
- One of that model's other melee weapons, if possible.

Hazardous
Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

Psychic
Each time an attack is made with a **[PSYCHIC]** weapon, you can ignore any or all modifiers to that attack's BS or WS characteristic and any or all modifiers to the hit roll. Attacks made with **[PSYCHIC]** weapons are known as **psychic** attacks (this can be important for the triggering of other rules).

Sustained Hits
This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

Deadly Demise 1
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").
Example: An Impulsor with a unit of Intercessors embarked within it is destroyed by ranged attacks. First, any unresolved attacks made by the attacking unit are resolved. Then the Intercessors make an emergency disembark move. Then the roll is made for the Deadly Demise ability, and on a 6, that ability is resolved. Finally, the Impulsor is removed from the battlefield.

Pistol

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Miraculous Savior

(Once per battle, per army) At the end of your opponent's Charge phase (excluding the first battle round), you can select one enemy unit that made a charge move this phase. This unit can make an ingress move and must be set up engaged with that enemy unit. . That move does not prevent this unit from being eligible to move

WEAPON ABILITIES

Devastating Wounds

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

CORE RULES

Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

Fights First

While every model in a unit has this ability, that unit is a Fights First unit.

See the Resolve Fights First Combats step in the Fight phase (12.04).

Lone Operative

Unless part of an attached unit, this unit is not visible to enemy models unless they are within 12" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within 12" of this unit.

If this ability takes the form Lone Operative X", unless part of an attached unit, this unit is not visible to enemy models unless they are within X" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within X" of this unit.
