ENHANCEMENTS

Artificer Armour

10 pts

ADEPTUS ASTARTES model only. The bearer has a Save characteristic of 2+ and the Feel No Pain 5+ ability.

The Honour Vehement

15 pts

ADEPTUS ASTARTES model only. Add 1 to the Attacks and Strength characteristics of the bearer's melee weapons. While the bearer is under the effects of the Assault Doctrine, add 2 to the Attacks and Strength characteristics of the bearers melee weapons instead.

Adept of the Codex

20 pts

CAPTAIN model only. At the start of your Command phase, if the bearer is on the battlefield, instead of selecting a Combat Doctrine to be active for your army, you can select the Tactical Doctrine. If you do, until the start of your next Command phase, that Combat Doctrine is active for the bearer's unit only, even if you have already selected that Combat Doctrine to be active for your army this battle.

Fire Discipline

25 pts

ADEPTUS ASTARTES model only. While the bearer is leading a unit, ranged weapons equipped by models in that unit have the [SUSTAINED HITS 1] ability. In addition, while the bearer's unit is under the effects of the Devastator Doctrine, you can reroll Advance rolls made for that unit.

DETACHMENT-REGEL

The Codex Astartes has proven its worth as a superb treatise on warfare over countless battlefields, and has remained so even after ten thousand years. Many Space Marines hold its wisdom in awe, and exemplify its teachings, employing a flexible set of combat doctrines to eliminate their enemy. Few opponents can withstand the fury of such an onslaught. At the start of your Command phase, you can select one of the Combat Doctrines listed below. Until the start of your next Command phase, that Combat Doctrine is active and its effects apply to all ADEPTUS ASTARTES units from your army. You can only select each Combat Doctrine once per battle.

Devastator Doctrine The Codex Astartes details the strategic value of overwhelming firepower applied to key targets while advancing into position to eliminate threats. This unit is eligible to shoot in a turn in which it Advanced.

Tactical Doctrine As the warring armies close upon one another and vicious fire-fights erupt, the Codex lays out strategies for swiftly seizing the initiative and combining versatility with firepower. This unit is eligible to shoot and declare a charge in a turn in which it Fell Back.

Assault Doctrine The Codex Astartes leaves no doubt that the killing blow in most engagements must be delivered with a decisive close-quarters strike. It presents plentiful tactical means to achieve this end. This unit is eligible to declare a charge in a turn in which it Advanced.

FIGHT

ONLY IN DEATH DOES DUTY END

When: Fight phase, just after an enemy unit has selected its targets.

Target: One ADEPTUS ASTARTES unit from your army that was selected as the target of one or more of the attacking unit's attacks.

Effect: Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, do not remove it from play. The destroyed model can fight after the attacking model's unit has finished making its attacks, and is then removed from play.

ANVIL SIEGE FORCE

ENHANCEMENTS

Indomitable Fury

20 pts

GRAVIS model only. The first time the bearer is destroyed, roll one D6 at the end of the phase. On a 2+, set the bearer back up on the battlefield, as close as possible to where it was destroyed and not within Engagement Range of any enemy units, with its full wounds remaining.

Fleet Commander

15 pts

CAPTAIN model only. Once per battle, at the start of your Shooting phase, you can select one point on the battlefield and place a marker on that point. At the start of your next Shooting phase, place another marker on the battlefield within 12" of the centre of the first marker, then draw a straight line between the centre of each of these markers. Roll one D6 for each unit that line passes over or through: on a 3+, that unit suffers D3 mortal wounds. Both markers are then removed.

Stoic Defender

15 pts

ADEPTUS ASTARTES model only. While the bearer is leading a unit, models in that unit have the Feel No Pain 6+ ability while they are within range of an objective marker you control and, while that unit is Battle-shocked, halve the Objective Control characteristic of models in that unit instead of changing it to 0.

Architect of War

25 pts

ADEPTUS ASTARTES model only. While the bearer is leading a unit, ranged weapons equipped by models in that unit have the [IGNORES COVER] ability.

DETACHMENT-REGEL

Shield of the Imperium Across blood-drenched battlefields, within towering citadels and isolated orbital stations, the Angels of Death throw back tides of traitors, mutants, xenos and heretics, and purge enemy holdings of foes thanks to their disciplined strategies and fighting skills. All who oppose them are met with volleys of deadly accurate firepower long before they reach the battle-brothers' razor-sharp blades. Ranged weapons equipped by ADEPTUS ASTARTES models from your army have the [HEAVY] ability. If such a weapon already has this ability, each time an attack is made with that weapon, if the attacking model's unit Remained Stationary this turn, add 1 to the Wound roll.

Target SightedSpace Marine crews are relentless in their pursuit of assigned targets, coaxing every last trace of power from their war machines and demonstrating exemplary gunnery even under heavy fire.Each time a TANK ACE unit from your army (see below) Advances, do not make an Advance roll for it. Instead, until the end of the phase, add 6" to the Move characteristic of models in that unit.

Each time a TANK ACE unit from your army shoots in your Shooting phase, if that unit did not Advance this turn, you can re-roll the Damage roll.

KEYWORDS

ADEPTUS ASTARTES VEHICLE units from your army (excluding FORTIFICATIONS, DROP PODS, WALKERS and units that can FLY) have the TANK ACE keyword.

In the Muster Armies step, you can select up to three TANK ACE units from your army to gain the CHARACTER keyword.

Designer's Note: This means that the selected units can be given Enhancements, and one of them can be selected as your WARLORD.

Prioritised Eradication
Each time a model in this model's unit makes a melee attack that destroys one or more enemy units, roll one D6: on a 4+, you gain 1 CP.

Vehement Aggression
While this model is leading a unit, each time that unit is selected to fight, take a Leadership test for that unit: if passed, until the end of the phase, each time a model in that unit makes an attack, you can re-roll the Hit roll; if failed, until the end of the phase, each time a model in that unit makes an attack, re-roll a Hit roll of 1

Leader
This model can be attached to the following units:

- Assault Intercessor Squad
- Infernus Squad
- Intercessor Squad
- Crusader Squad
- Sword Brethren
- Sternguard Veteran Squad

You can attach this model to one of the above units even if one Captain or Chapter Master model has already been attached to it. If you do, and that Bodyguard unit is destroyed, the Leader units attached to it become separate units, with their original Starting Strengths.

WEAPON ABILITIES

Anti
This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.
Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

FACTION KEYWORDS: Adeptus Astartes, Black Templars

Devastating Wounds
Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Lethal Hits
Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

Pistol
[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

Rapid Fire
This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

Sustained Hits
This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

Support
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it.

Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

Lethal Hits

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

Pistol

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

CORE RULES

Deadly Demise D3
This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

WEAPON ABILITIES

Devastating Wounds
Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

Rapid Fire
This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

Twin-linked
Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

Anti
This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

ABILITIES

Attached Unit
If a CHARACTER from your army with the Leader ability can be attached to an INTERCESSOR SQUAD, it can be attached to this unit instead.

Exploit Their Cowardice
Each time an enemy unit within Engagement Range of this unit is selected to Fall Back, after it ends that Fall Back move, if this unit is not within Engagement Range of one or more enemy units, this unit can make a Normal move.

WEAPON ABILITIES

Ignores Cover
Each time an attack is made with an **IGNORES COVER** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

Lethal Hits
Each time an attack made with a **LETHAL HITS** weapon results in a critical hit, you can choose for that attack to automatically wound the target.
Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

Pistol
PISTOL and [CLOSE-QUARTERS] are identical for all rules purposes.
Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

Sustained Hits
This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

Torrent
Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

Twin-linked
Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

Power Fist	Melee	3	3+	8	-2	2

ABILITIES

Judgement of the Weak

Each time an enemy unit (excluding MONSTERS and VEHICLES) within engagement range of this unit Falls Back, all models in that enemy unit must take a Desperate Escape test. When doing so, if that enemy unit is Battle-shocked, subtract 1 from each of those tests.

Teleport Homer

At the start of the battle, you can set up one Teleport Homer token for this unit anywhere on the battlefield that is not in your opponent's deployment zone. If you do, once per battle, you can target this unit with the Rapid Ingress Stratagem for OCP, but when resolving that Stratagem, you must set this unit up within 3" horizontally of that token and not within 8" horizontally of any enemy models. That token is then removed.

CORE RULES

Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.
