FRAKTIONSREGELN

REANIMATION PROTOCOLS

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

FRAKTIONSKRAM

ANNIHILATION PROTOCOL

RULE

Each time a DESTROYER CULT or FLAYED ONES unit from your army declares a charge, you can re-roll the Charge roll. If one or more targets of that charge are Below Half-strength, add 1 to the charge roll as well.

Each time a DESTROYER CULT unit from your army makes a ranged attack that targets the closest eligible target, add 1 to the Armour Penetration characteristic of that attack.

COMMAND PROTOCOLS

RULE

While a NECRONS CHARACTER model is leading this unit, each time a model in this unit makes an attack, add 1 to the Hit roll.

HYPERPHASING

RULE

At the end of your opponent's turn, you can select a number of NECRONS units from your army (excluding units that are within Engagement Range of one or more enemy units). The maximum number of units you can select depends on the battle size, as follows:

Incursion - Up to 1 unit.

Strike Force - Up to 2 units

Onslaught - Up to 3 units

Once you have made your selection, remove those units from the battlefield and place them into Strategic Reserves.

POWER MATRIX

RULE

Certain areas of the battlefield are considered to be within your army's Power Matrix, as follows:

- Your deployment zone is always within your army's Power Matrix.
- At the start of any phase, if you control at least half of the objective markers within No Man's Land, until the end of that phase, No Man's Land is within your army's Power Matrix.
- At the start of any phase, if you control at least half of the objective markers within your opponent's deployment zone, until the end of that phase, your opponent's deployment zone is within your army's Power Matrix.

Each time a model in a CRYPTTEK or CANOPTTEK unit from your army makes an attack, re-roll a Hit roll of 1. If such a unit is wholly within your Power Matrix, you can re-roll the Hit roll instead.

WORTHY FOES

RULE

In your Command phase, select one enemy unit. Until the start of your next Command phase, each time an NOBLE, LYCHGUARD or TRIARCH unit from your army makes an attack against that unit, add 1 to the Wound roll.

RELENTLESS ONSLAUGHT

RULE

Each time a NECRONS model from your army makes an attack that targets a unit within range of one or more objective markers, add 1 to the Hit roll. In addition, ranged weapons equipped by NECRONS VEHICLE and NECRONS MOUNTED models (excluding TITANIC models) from your army have the [ASSAULT] ability.

TECHNOSORCEROUS AUGMENTATIONS

RULE

- Ranged weapons equipped by Cryptek models from your army have the [ASSAULT] ability.
- In your Shooting phase, each time a Cryptek unit from your army is selected to shoot, select one of the following abilities: [ANTI-INFANTRY 3+], [ANTI-MOUNTED 4+], [ASSAULT], [HEAVY], [IGNORES COVER]. Until the end of the phase, ranged weapons equipped by models in that unit have that ability

COLD FERVOUR

RULE

- Add 2 to the Strength characteristic of weapons equipped by Destroyer Cult models from your army.
- The first time each turn that a Destroyer Cult unit from your army makes attacks that destroy a unit or cause it to become Below Half-strength, after that unit has finished resolving its attacks, until the end of the turn, add 2 to the Strength characteristic of weapons equipped by friendly Necrons models (excluding Destroyer Cult, Monster and Titanic models).

COSMIC DISTORTION

RULE

Necrons Monster units from your army have the following ability:

Distortion Fields (Aura): While an enemy unit is within 6" of this unit, it is unravelling. While an enemy unit is unravelling, each time an attack targets that unit, improve the Armour Penetration characteristic of that attack by 1.

At the start of each phase, for each Necrons Monster unit from your army, that unit can suffer 3 mortal wounds. If it does, until the end of the phase, the range of that unit's Distortion Fields Aura ability is increased to 9".

Restrictions

When mustering your army, each Necrons Monster unit from your army has the relevant Necrodermal Binding ability shown on the right, and you must increase the points cost of each of those units by the amount shown in the Munitorum Field Manual. If this causes your army to exceed the points limit for the battle you are playing, you cannot include that unit in your army.

ENHANCEMENTS (4)

Eternal Madness

20 pts

NECRONS model only. In the Fight phase, each time a model in the bearer's unit is destroyed, if that model had not fought this phase, roll one D6. On a 4+, do not remove the destroyed model from play; it can fight after the attacking model's unit has finished making its attacks, and is then removed from play.

Ingrained Superiority

5 pts

NECRONS model only. Each time a model in the bearer's unit makes an attack, on a Critical Wound, improve the Armour Penetration characteristic of that attack by 1.

Soulless Reaper

15 pts

DESTROYER CULT model only. Each time an enemy unit within Engagement Range of the bearer's unit is selected to Fall Back, roll one D6. On a 3+, that unit cannot Fall Back and must Remain Stationary.

Eldritch Nightmare

10 pts

DESTROYER CULT model only. At the start of the Fight phase, each enemy unit within Engagement Range of the bearer must take a Battle-shock test.

DETACHMENT RULE

Each time a DESTROYER CULT or FLAYED ONES unit from your army declares a charge, you can re-roll the Charge roll. If one or more targets of that charge are Below Half-strength, add 1 to the charge roll as well.

Each time a DESTROYER CULT unit from your army makes a ranged attack that targets the closest eligible target, add 1 to the Armour Penetration characteristic of that attack.

STRATAGEMS (6/6)

1 CP ANNIHILATION LEGION – BATTLE TACTIC STRATAGEM

MOVEMENT

BLOOD-FUELLED CRUELTY

When: Your opponent's Movement phase, just after an enemy unit ends a Fall Back move.

Target: One DESTROYER CULT or FLAYED ONES unit from your army that started the phase within Engagement Range of that enemy unit.

Effect: Roll one D6: on a 2-5, that enemy unit suffers D3 mortal wounds; on a 6, that enemy unit suffers 3 mortal wounds. Your unit can then make a Normal move, but must end that move as close as possible to that enemy unit.

1 CP ANNIHILATION LEGION – STRATEGIC PLOY STRATAGEM

SHOOTING

INSANITY'S IRE

When: Your opponent's Shooting phase, just after an enemy unit has shot.

Target: One DESTROYER CULT or FLAYED ONES unit from your army that had one or more of its models destroyed by the attacking unit's attacks.

Effect: Your unit can make a Normal move, but must end that move as close as possible to that enemy unit.

1 CP ANNIHILATION LEGION – STRATEGIC PLOY STRATAGEM

SHOOTING

MASKS OF DEATH

When: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has selected its targets.

Target: One DESTROYER CULT or FLAYED ONES unit from your army that was selected as the target of one or more of the attacking unit's attacks.

Effect: Until the end of the phase, each time an attack targets your unit, subtract 1 from the Hit roll.

1 CP ANNIHILATION LEGION – BATTLE TACTIC STRATAGEM

SHOOTING

THE SPOOR OF FRAILTY

When: Your Shooting phase or the Fight phase.

Target: One DESTROYER CULT or FLAYED ONES unit from your army that has not been selected to shoot or fight this phase.

Effect: Until the end of the phase, each time a model from your unit makes an attack that targets a unit below Starting Strength, add 1 to the Hit roll. If the target is Below Half-strength, add 1 to the Wound roll as well.

1 CP ANNIHILATION LEGION – BATTLE TACTIC STRATAGEM

FIGHT

MURDEROUS REANIMATION

When: Fight phase.

Target: One DESTROYER CULT or FLAYED ONES unit from your army that has just destroyed an enemy unit, or just caused an enemy unit that was not Below Half-strength to become Below Half-strength.

Effect: Your unit's Reanimation Protocols activate.

1 CP ANNIHILATION LEGION – BATTLE TACTIC STRATAGEM

FIGHT

PITILESS HUNTERS

When: Fight phase.

Target: One DESTROYER CULT or FLAYED ONES unit from your army that has not been selected to fight this phase.

Effect: Until the end of the phase, each time a model in your unit makes a Pile-in or Consolidation move, it can move up to 6" instead of up to 3".

AWAKENED DYNASTY

6 Stratagems · 4 Enhancements

ENHANCEMENTS (4)

Veil of Darkness

20 pts

NECRONS model only. (Once per battle, per army) At the end of your opponent's turn, if this unit is unengaged, you can use this ability. If you do:

- Place this unit in strategic reserves.
- This unit has Deep Strike until the start of your next Shooting phase.
- This unit must make an ingress move in your next Movement phase (including in your first turn).

Nether-realm Casket

20 pts

NECRONS model only. While the bearer is leading a unit, models in that unit have the Stealth ability.

Phasal Subjugator

35 pts

NECRONS model only. While a friendly NECRONS unit (excluding CHARACTER units) is within 6" of the bearer, each time a model in that unit makes an attack, add 1 to the hit roll.

Enaegic Dermal Bond

30 pts

NECRONS model only. The bearer has the Feel No Pain 4+ ability.

DETACHMENT RULE

While a NECRONS CHARACTER model is leading this unit, each time a model in this unit makes an attack, add 1 to the Hit roll.

STRATAGEMS (6/6)

1 CP AWAKENED DYNASTY – STRATEGIC PLOY STRATAGEM

MOVEMENT

PROTOCOL OF THE SUDDEN STORM

When: Your Movement phase.

Target: One NECRONS unit from your army.

Effect: Until the end of the turn, ranged weapons equipped by models in your unit have the [ASSAULT] ability. In addition, if a Necrons Character is leading your unit, until the end of the phase, you can re-roll Advance rolls made for your unit.

1 CP AWAKENED DYNASTY – BATTLE TACTIC STRATAGEM

SHOOTING

PROTOCOL OF THE CONQUERING TYRANT

When: Your Shooting phase.

Target: One NECRONS unit from your army that has not been selected to shoot this phase.

Effect: Until the end of the phase, each time a model in your unit makes an attack that targets a unit within half range, re-roll a Hit roll of 1. If a NECRONS CHARACTER is leading your unit, until the end of the phase, you can re-roll the Hit roll for that attack instead.

1 CP AWAKENED DYNASTY – STRATEGIC PLOY STRATAGEM

SHOOTING

PROTOCOL OF THE UNDYING LEGIONS

When: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has resolved its attacks.

Target: One NECRONS unit from your army that had one or more of its models destroyed as a result of the attacking unit's attacks.

Effect: Your unit activates its Reanimation Protocols and reanimates D3 wounds (or D3+1 wounds if a NECRONS CHARACTER is leading your unit).

2 CP AWAKENED DYNASTY – STRATEGIC PLOY STRATAGEM

SHOOTING

PROTOCOL OF THE VENGEFUL STARS

When: Your opponent's Shooting phase, just after an enemy unit destroys a NECRONS unit from your army.

Target: One NECRONS CHARACTER unit from your army that was within 6" of that NECRONS unit when it was destroyed.

Effect: After the attacking unit has resolved its attacks, your unit can shoot as if it were your Shooting phase, but it must target only that enemy unit when doing so, and can only do so if that enemy unit is an eligible target.

1 CP AWAKENED DYNASTY – BATTLE TACTIC STRATAGEM

FIGHT

PROTOCOL OF THE HUNGRY VOID

When: Fight phase.

Target: One NECRONS unit from your army that has not been selected to fight this phase.

Effect: Until the end of the phase, add 1 to the Strength characteristic of melee weapons equipped by models in your unit. In addition, If a Necrons Character is leading your unit, until the end of the phase, improve the Armour Penetration characteristic of melee weapons equipped by models in your unit by 1. (this is not cumulative with any other modifiers that improve Armour Penetration).

1 CP AWAKENED DYNASTY – EPIC DEED STRATAGEM

ANY

PROTOCOL OF THE ETERNAL REVENANT

When: Any phase.

Target: One Necrons Infantry Character model from your army that was just destroyed. You can use this Stratagem on that model even though it was just destroyed.

Effect: At the end of the phase, set your model back up on the battlefield as close as possible to where it was destroyed and not within Engagement Range of any enemy units, with half of its starting number of wounds remaining.

Restriction: Each model can only be targeted with this Stratagem once per battle.

CANOPTEK COURT

6 Stratagems · 4 Enhancements

ENHANCEMENTS (4)

Dimensional Sanctum

20 pts

CRYPTEK model only. Models in the bearer's unit have the Infiltrators ability.

Hyperphasic Fulcrum

15 pts

CRYPTEK model only. While the bearer is leading a unit, if that unit is wholly within your army's Power Matrix, each time a model in that unit makes an attack, re-roll a Wound roll of 1.

Autodivinator

15 pts

CRYPTEK model only. Each time your opponent gains a CP as a result of an ability, roll one D6: on a 2+, you also gain 1CP.

Metalodermal Tesla Weave

10 pts

CRYPTEK model only. Once per phase, when an enemy unit selects the bearer's unit as a target of a charge, roll one D6: on a 2-5, that enemy unit suffers D3 mortal wounds, on a 6, that enemy unit suffers 3 mortal wounds.

DETACHMENT RULE

- Ranged weapons equipped by Cryptek models from your army have the [ASSAULT] ability.
- In your Shooting phase, each time a Cryptek unit from your army is selected to shoot, select one of the following abilities: [ANTI-INFANTRY 3+], [ANTI-MOUNTED 4+], [ASSAULT], [HEAVY], [IGNORES COVER]. Until the end of the phase, ranged weapons equipped by models in that unit have that ability

STRATAGEMS (6/6)

1 CP CANOPTEK COURT – STRATEGIC PLOY STRATAGEM MOVEMENT

REACTIVE SUBROUTINES

When: Your opponent's Movement phase, just after an enemy unit ends a Normal, Advance or Fall Back move.

Target: One CANOPTEK unit from your army that is within 9" of that enemy unit.

Effect: Your unit can make a Normal move of up to 6".

1 CP CANOPTEK COURT – STRATEGIC PLOY STRATAGEM SHOOTING

COUNTERTEMPORAL SHIFT

When: Your opponent's Shooting phase, just after an enemy unit has selected its targets.

Target: One CANOPTEK unit from your army that was selected as the target of one or more of the attacking unit's attacks.

Effect: Until the end of the phase, your unit can only be selected as the target of a ranged attack if the attacking model is within 18".

1 CP CANOPTEK COURT – BATTLE TACTIC STRATAGEM SHOOTING

CURSE OF THE CRYPTTEK

When: Your opponent's Shooting phase or the Fight phase, just after an enemy unit has shot or fought.

Target: One CRYPTTEK model from your army that was destroyed by one of the attacking unit's attacks. You can use this Stratagem on that model even though it was just destroyed.

Effect: Until the end of the battle, each time a friendly CANOPTEK model makes an attack that targets the attacking unit, add 1 to the Hit roll and add 1 to the Wound roll.

2 CP CANOPTEK COURT – BATTLE TACTIC STRATAGEM SHOOTING

CYNOSURE OF ERADICATION

When: The start of your Shooting phase or the start of the Fight phase.

Target: One CRYPTTEK or CANOPTEK unit from your army that is wholly within your army's Power Matrix.

Effect: Until the end of the phase, weapons equipped by CRYPTTEK or CANOPTEK models in your unit have the [DEVASTATING WOUNDS] ability.

1 CP CANOPTEK COURT – STRATEGIC PLOY STRATAGEM SHOOTING

SOLAR PULSE

When: Start of your Shooting phase.

Target: One CRYPTTEK model from your army.

Effect: Select one objective marker within 18" of your CRYPTTEK model. Until the end of the phase, weapons equipped by friendly NECRONS models have the [IGNORES COVER] ability while targeting units within range of that objective marker.

1 CP CANOPTEK COURT – STRATEGIC PLOY STRATAGEM CHARGE

SUBOPTIMAL FACADE

When: Your opponent's Charge phase, just after an enemy unit has declared a charge.

Target: One CANOPTEK unit from your army that was selected as a target of that charge and is wholly within your army's Power Matrix.

Effect: Your unit's Reanimation Protocols activate.

ENHANCEMENTS (4)

Gauntlet of Compression20 pts

Add 6" to the Range characteristic of ranged weapons equipped by models in the bearer's unit.

Quantum Abacus15 pts

Each time you select the bearer's unit as the target of a Stratagem, roll one D6, adding 1 if it is within range of one or more objectives: on a 4+, you gain 1CP.

Atomic Disintegrators10 pts

In your Shooting phase, each time the bearer's unit is selected to shoot, when selecting an ability for the Technosorcerous Augmentations Detachment rule, you can also select from the following abilities: [ANTI-MONSTER 5+], [ANTI-VEHICLE 5+].

Gravitic Bolas15 pts

In your Shooting phase, after the bearer has shot, select one enemy unit hit by one or more of those attacks (excluding Titanic units); until the start of your next turn, that enemy unit is pinned. While a unit is pinned, subtract 2 from that unit's Move characteristic and subtract 2 from Charge rolls made for that unit.

DETACHMENT RULE

- Ranged weapons equipped by Cryptek models from your army have the [ASSAULT] ability. • In your Shooting phase, each time a Cryptek unit from your army is selected to shoot, select one of the following abilities: [ANTI-INFANTRY 3+], [ANTI-MOUNTED 4+], [ASSAULT], [HEAVY], [IGNORES COVER]. Until the end of the phase, ranged weapons equipped by models in that unit have that ability.

Unflinching Will20 pts

OVERLORD model only. The bearer's melee weapons have the [PRECISION] and [ANTI-INFANTRY 5+] abilities.

Warrior Noble15 pts

OVERLORD model only. Each time a melee attack targets the bearer's unit, subtract 1 from the Hit roll.

Eternal Conqueror25 pts

OVERLORD model only. Each time a model in the bearer's unit makes an attack that targets an enemy unit within range of an objective marker, you can re-roll the Hit roll.

DETACHMENT RULE

Certain areas of the battlefield are considered to be within your army's Power Matrix, as follows:

- Your deployment zone is always within your army's Power Matrix.
- At the start of any phase, if you control at least half of the objective markers within No Man's Land, until the end of that phase, No Man's Land is within your army's Power Matrix.
- At the start of any phase, if you control at least half of the objective markers within your opponent's deployment zone, until the end of that phase, your opponent's deployment zone is within your army's Power Matrix.

Each time a model in a CRYPTEK or CANOPTEK unit from your army makes an attack, re-roll a Hit roll of 1. If such a unit is wholly within your Power Matrix, you can re-roll the Hit roll instead.

DETACHMENT RULE

Necrons Monster units from your army have the following ability:

Distortion Fields (Aura): While an enemy unit is within 6" of this unit, it is unravelling. While an enemy unit is unravelling, each time an attack targets that unit, improve the Armour Penetration characteristic of that attack by 1.

At the start of each phase, for each Necrons Monster unit from your army, that unit can suffer 3 mortal wounds. If it does, until the end of the phase, the range of that unit's Distortion Fields Aura ability is increased to 9".

Restrictions

When mustering your army, each Necrons Monster unit from your army has the relevant Necrodermal Binding ability shown on the right, and you must increase the points cost of each of those units by the amount shown in the Munitorum Field Manual. AUFSTELLUNG

1x Annihilation Barge (Large Flying Base)

Equipped with: Gauss cannon, Tesla cannon, Twin tesla destructor, Armoured bulk

Wargear Options:

- This model can replace its Gauss cannon with Tesla cannon.

ABILITIES

Malevolent Arcing

In your Shooting phase, each time you select a target for this model's twin tesla destructor, roll one D6 for the target unit and one D6 for every other enemy unit within 3" of the target unit. On a 5+, the unit being rolled for is struck by arcing energies; after resolving all of this model's attacks against the target unit, each unit struck by arcing energies suffers D3 mortal wounds.

WEAPON RULES

LETHAL HITS

Each time an attack made with a **LETHAL HITS** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

Deadly Demise 1

This ability always takes the form **Deadly Demise X**. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

CORE - Leader

Lord of the Pyrrhian Eternals

While this model is leading a unit, each time a model in that unit makes an attack, add 1 to the Wound roll.

Mind in the Machine

At the start of your opponent's Shooting phase, select one enemy VEHICLE unit within 12" of and visible to this model. That unit must take a Leadership test. If that test is passed, until the end of the phase, each time a model in that unit makes an attack, subtract 1 from the Hit roll; if that test is failed, that unit is not eligible to shoot this phase.

Leader

This model can be attached to the following units:
• IMMORTALS

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a **DEVASTATING WOUNDS** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **DEVASTATING WOUNDS** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **DEVASTATING WOUNDS** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

ONE SHOT

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its **ONE SHOT** weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all **ONE SHOT** weapons in that unit can be selected to make attacks with once per battle.

CORE RULES

◆ **Leader**

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

◆ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

- Distortion Fields (Aura)**

While an enemy unit is within 6" of this unit, it is unravelling. While an enemy unit is unravelling, each time an attack targets that unit, improve the Armour Penetration characteristic of that attack by 1.

At the start of each phase, for each Necrons Monster unit from your army, that unit can suffer 3 mortal wounds. If it does, until the end of the phase, the range of that unit's Distortion Fields Aura ability is increased to 9".

- Grand Illusion**

If your army includes this model, after both players have deployed their armies, select up to three NECRONS units from your army and redeploy them. When doing so, any of those units can be placed in Strategic Reserves, regardless of how many units are already in Strategic Reserves.
- Lord of Deceit (Aura)**

Each time your opponent targets a unit from their army with a Stratagem, if that unit is within 12" of this model, increase the cost of that use of that Stratagem by 1CP.
- Necrodermis**

Each time an attack is allocated to this model, subtract 1 from the Damage characteristic of that attack.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

PRECISION

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

CORE RULES

◇ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◇ Feel No Pain 5+

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

◇ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

Animus Damper

Once per turn, at the start of your opponent's Shooting phase, select one enemy Vehicle unit visible to the bearer. That unit must take a Leadership test. Until the end of the phase, each time a model in that unit makes an attack, subtract 1 from the Hit roll and, if that Leadership test was failed, subtract 1 from the Wound roll as well.

Distortion Fields (Aura)

While an enemy unit is within 6" of this unit, it is unravelling. While an enemy unit is unravelling, each time an attack targets that unit, improve the Armour Penetration characteristic of that attack by 1.

Necrodermis

Each time an attack is allocated to this model, subtract 1 from the Damage characteristic of that attack.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

EXTRA ATTACKS

Each time a unit containing one or more models with an **[EXTRA ATTACKS]** weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's **[EXTRA ATTACKS]** weapons.
- One of that model's other melee weapons, if possible.

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

WEAPON RULES

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

CORE RULES

◆ Infiltrators

During deployment, if every model in a unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from your opponent's deployment zone and all enemy units.

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

Damaged: 1-4 wounds remaining

While this model has 1-4 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

Sentinel Construct

Each time you target this unit with the Fire Overwatch Stratagem, while resolving that Stratagem, hits are scored on unmodified Hit rolls of 5+.

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ **Deadly Demise D3**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

Accelerator Mandible

At the start of the Fight phase, select one friendly Canoptek unit within 3" of the bearer's unit. Until the end of the phase, improve the Weapon Skill characteristic of weapons equipped by models in that unit by 1.

Harassment Swarm (Aura)

While an enemy unit (excluding Monsters and Vehicles) is within 3" of this unit, each time a model in that unit makes an attack, subtract 1 from the Hit roll.

Nanoscarab Projector

Once per battle round, when a friendly Necrons unit within 3" of the bearer activates its Reanimation Protocols, the bearer can use this ability. If it does, that unit reanimates 1 additional wound.

WEAPON RULES

ASSAULT

Units containing one or more models with an [ASSAULT] weapon can shoot using **assault** shooting (10.05).

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

◆ Scouts 8"

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
- If that unit is wholly within your deployment zone, it can make a scout move.
- If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

Self-destruction

At the start of the Fight phase, if this unit is within Engagement Range of one or more enemy units, you can select one model in this unit to destroy. If you do, select one enemy unit within Engagement Range of that model and roll one D6, adding 1 to the result if that unit is a VEHICLE. On a 2-5, that unit suffers D3 mortal wounds; on a 6+, that unit suffers 3 mortal wounds.

WEAPON RULES

Gloom Prism (Aura)

While a friendly Necrons unit is within 6" of the bearer, models in that unit have the Feel No Pain 5+ ability against mortal wounds and Psychic Attacks.

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

CORE RULES

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.
- Stealth

If every model in a unit has this ability, each time a ranged attack targets that unit, that unit has the benefit of cover against that attack (13.08).
- Support

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it.

Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

ABILITIES

Ancient Cover

Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this FORTIFICATION, that model has the Benefit of Cover against that attack.

Deployment

When this unit is first set up on the battlefield, its models do not have to be set up in Unit Coherency. Instead, each model must be set up wholly within 12" of one other model from its unit. From that point on, each model in this unit is treated as a separate unit.

Fortification

While an enemy unit is only within Engagement Range of one or more Fortifications from your army:

- That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll.
- Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.

Reanimation Nodes (Aura)

While a friendly NECRONS INFANTRY unit is within 6" of this FORTIFICATION, models in that unit have the Feel No Pain 6+ ability.

CORE RULES

Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

Bound Creation

While this unit is in the same unit as a CRYPTOTEK model, that CRYPTOTEK model has the Feel No Pain 4+ ability.

Cryptek Retinue

At the start of the Declare Battle Formations step, this unit can join one other unit from your army that is being led by a CRYPTOTEK model (a unit cannot have more than one CRYPTOTHRALLS unit joined to it). If it does, until the end of the battle, every model in this unit counts as being part of that Bodyguard unit, and that Bodyguard unit's Starting Strength is increased accordingly.

Systematic Vigour

Each time a CRYPTOTHRALL model in this unit is destroyed by a melee attack, if that model has not fought this phase, roll one D6: on a 2+, do not remove it from play. The destroyed model can fight after the attacking model's unit has finished making its attacks, and it is then removed from play.

CORE RULES

ABILITIES

Hyperspace Hunters

Once per turn, in the Reinforcements step of your opponent's Movement phase, when an enemy unit is set up on the battlefield from Reserves within 18" of and visible to this unit, this unit can shoot as if it were your Shooting phase, but must only target that enemy unit when doing so, and can only do so if that enemy unit is an eligible target.

WEAPON RULES

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

PRECISION

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

CORE RULES

◊ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◊ Reanimation Protocols

ABILITIES

Atavistic Instigation

Each time this model targets an enemy unit with its heavy death ray, your opponent must declare if that unit will stand firm or duck for cover:

- If it stands firm, when resolving attacks against that unit this phase, a successful unmodified Hit roll of 5+ scores a Critical Hit.
- If it ducks for cover, until the start of your next Shooting phase, each time a model in that unit makes an attack, subtract 1 from the Hit roll.

Damaged: 1-4 wounds remaining

While this model has 1-4 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

WEAPON RULES

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Reanimation Protocols

Overwhelming Obliteration

In your Movement phase, if this model Remains Stationary, until the end of the turn, its doomsday cannon has the [DEVASTATING WOUNDS] ability.

WEAPON RULES

BLAST
Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

HEAVY
In your Shooting phase, each time an attack is made with a [HEAVY] weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

LETHAL HITS
Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

RAPID FIRE
This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

CORE RULES

◆ **Deadly Demise D3**

ABILITIES

CORE - Leader, Leader, Leader, Leader, Leader

Adaptive Strategy

This model's unit is eligible to shoot and declare a charge in a turn in which it Fell Back.

Engrammatic Logic

Once per battle, at the start of any phase, you can select one friendly Necrons unit that is Battle-shocked and within 12" of this model. That unit is no longer Battle-shocked.

Harbinger of Despair

Once per battle round, at the start of a phase during your turn, you can select one enemy unit within 18" of this model. That unit must make a Battle-shock test, subtracting 1 from the test when it does so.

Harbinger of Destruction

Each time a model in this unit makes a ranged attack, an unmodified Hit roll of 5+ scores a Critical Hit.

Implacable Resistance

Each time an attack is allocated to this model, subtract 1 from the Damage characteristic of that attack.

Living Lightning

In your Shooting phase, select one enemy unit within 18" of and visible to this model and roll 4 D6: for each 4+, that enemy unit suffers 1 mortal wound.

My Will Be Done

Once per battle round, one unit from your army with this ability can be targeted with a Stratagem for OCP, even if you have already targeted a different unit with that Stratagem this phase.

Timesplinter Mantle

While this model is leading a unit, each time an attack targets that unit, subtract 1 from the Hit roll.

United in Destruction

While this model is leading a unit, melee weapons equipped by models in that unit have the [Lethal Hits] ability.

Leader

This model can be attached to the following units: Ophydian Destroyers

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

ONE SHOT

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its **[ONE SHOT]** weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all **[ONE SHOT]** weapons in that unit can be selected to make attacks with once per battle.

PISTOL

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ Infiltrators

During deployment, if every model in a unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from your opponent's deployment zone and all enemy units.

◆ Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

WEAPON RULES

IGNORES COVER

Each time an attack is made with an **IGNORES COVER** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

TORRENT

Each time an attack is made with a **TORRENT** weapon, that attack automatically hits the target.

CORE RULES

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

◆ Support

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it.

Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

ABILITIES

Repair Barge

Once per turn, just after an enemy unit finishes making its attacks, if one or more friendly NECRON WARRIORS units within 3" of this model lost one or more wounds as a result of those attacks, this model can use this ability. If it does, select one of those NECRON WARRIORS units; that unit's Reanimation Protocols activate. The same NECRON WARRIORS unit cannot be selected for this ability more than once per turn.

Ghost Ark (Transport)

Capacity: This model has a transport capacity of 10 NECRON WARRIOR models and 1 NECRONS INFANTRY CHARACTER model.

WEAPON RULES

LETHAL HITS

Each time an attack made with a **LETHAL HITS** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **DEVASTATING WOUNDS**.*

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

CORE RULES

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

Inescapable Death

Once per turn, one unit from your army with this ability can be targeted with the Fire Overwatch Stratagem for OCP, even if you have already used that Stratagem on a different unit this phase. In addition, each time you target this unit with the Fire Overwatch Stratagem, while resolving that Stratagem, hits are scored on unmodified Hit rolls of 2+.

Multi-threat Eliminator

Once per turn, in your opponent's Shooting phase, when an enemy unit makes a ranged attack that targets a friendly NECRONS unit within 3" of a model with this ability, after that enemy has shot, one model with this ability that is within 3" of that target can shoot as if it were your Shooting phase, but must target that enemy unit when doing so, and can only do so if that enemy unit is an eligible target.

WEAPON RULES

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

PISTOL

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

CORE RULES

◆ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ Lone Operative

Unless part of an attached unit, this unit is not visible to enemy models unless they are within 12" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within 12" of this unit.

If this ability takes the form Lone Operative X", unless part of an attached unit, this unit is not visible to enemy models unless they are within X" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within X" of this unit.

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

ABILITIES

CORE - Leader, Leader, Leader, Leader, Leader

Adaptive Strategy

This model's unit is eligible to shoot and declare a charge in a turn in which it Fell Back.

Engrammatic Logic

Once per battle, at the start of any phase, you can select one friendly Necrons unit that is Battle-shocked and within 12" of this model. That unit is no longer Battle-shocked.

Harbinger of Despair

Once per battle round, at the start of a phase during your turn, you can select one enemy unit within 18" of this model. That unit must make a Battle-shock test, subtracting 1 from the test when it does so.

Harbinger of Destruction

Each time a model in this unit makes a ranged attack, an unmodified Hit roll of 5+ scores a Critical Hit.

Living Lightning

In your Shooting phase, select one enemy unit within 18" of and visible to this model and roll 4 D6: for each 4+, that enemy unit suffers 1 mortal wound.

My Will Be Done

Once per battle round, one unit from your army with this ability can be targeted with a Stratagem for OCP, even if you have already targeted a different unit with that Stratagem this phase.

Timesplinter Mantle

While this model is leading a unit, each time an attack targets that unit, subtract 1 from the Hit roll.

United in Destruction

While this model is leading a unit, melee weapons equipped by models in that unit have the [Lethal Hits] ability.

Leader

This model can be attached to the following units: Ophydian Destroyers

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

ONE SHOT

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its **[ONE SHOT]** weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all **[ONE SHOT]** weapons in that unit can be selected to make attacks with once per battle.

PISTOL

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding **MONSTER/VEHICLE** models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ Infiltrators

During deployment, if every model in a unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from your opponent's deployment zone and all enemy units.

◆ Leader

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

◆ Stealth

If every model in a unit has this ability, each time a ranged attack targets that unit, that unit has the benefit of cover against that attack (13.08).

◇ **Feel No Pain 5+**

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

◇ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

Equipped with: Staff of light, Lord's blade

Wargear Options:

This model can replace its Staff of light with Lord's blade.

This model can be equipped with one of: Nanoscarab amulet, Resurrection orb.

ABILITIES

CORE - Leader

Destroyer Cult

While this model is leading a unit, each time a model in that unit makes a ranged attack, a successful unmodified Hit roll of 5+ scores a Critical Hit.

Driven by Hatred

Each time this model makes an attack that targets an enemy unit that is Below Half-strength, you can re-roll the Hit roll and you can re-roll the Wound roll.

Nanoscarab amulet

The bearer has the Feel No Pain 5+ ability.

Resurrection orb

(Once per battle, per unit) At the end of any phase, you can use this ability. If you do, this unit resurrects:

- When a unit resurrects, that unit's Reanimation Protocols activate, but that unit heals D6 wounds (instead of D3 wounds). You cannot resurrect more than one unit per turn.

Leader

This model can be attached to the following units:

- LOKHUST DESTROYERS
- LOKHUST HEAVY DESTROYERS

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a **DEVASTATING WOUNDS** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **DEVASTATING WOUNDS** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **DEVASTATING WOUNDS** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

CORE RULES

◇ **Feel No Pain 5+**

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

◇ **Leader**

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

◇ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

ABILITIES

Damaged: 1-7 wounds remaining

While this model has 1-7 wounds remaining, subtract 4 from its Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Eternity Gate

In your movement phase (excluding the first battle round), you can select one friendly NECRONS INFANTRY unit that is either in strategic reserves or on the battlefield (if you select a unit on the battlefield, remove that unit from the battlefield and place it into strategic reserves). That unit can make an ingress move, and must be set up wholly within 6" of this unit and not engaged with any enemy units. That unit cannot make a charge move this turn.

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

RAPID FIRE

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

◇ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◇ Reanimation Protocols

Infectious Murder-madness (Aura)

While a friendly Necrons unit (excluding Monster and Titanic units) is within 6" of this model, each time a model in that unit makes an attack, if that model has the Destroyer Cult keyword or that enemy unit is the closest eligible target, that attack has the [SUSTAINED HITS 1] ability.

Nullstone Field Generator (Aura)

While a friendly Necrons unit is within 6" of the bearer, models in that unit have the Feel No Pain 5+ ability against mortal wounds and Psychic Attacks.

Prophet of Destruction

Protective Disciples

While this model is within 3" of one or more other friendly Destroyer Cult units, this model has the Lone Operative ability.

WEAPON RULES

EXTRA ATTACKS

Each time a unit containing one or more models with an [EXTRA ATTACKS] weapon fights, those models will make attacks with those weapons in addition to any others. In the Select Weapons step (04.01), for each of those models, you must select:

- All of that model's [EXTRA ATTACKS] weapons.
- One of that model's other melee weapons, if possible.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

PISTOL

[PISTOL] and [CLOSE-QUARTERS] are identical for all rules purposes.

Units containing one or more models with a [CLOSE-QUARTERS] weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding MONSTER/VEHICLE models), you can only select one of the following to make attacks with:

- One or more of its [CLOSE-QUARTERS] weapons.
- One or more of its other ranged weapons.

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

In addition, if that unit can FLY, until the start of your next Movement phase, roll one D6 each time that unit ends any type of move: on a 4+, that unit suffers D3 mortal wounds.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Wargear Options:

- This unit can be equipped with up to 2x Plasmacyte.

ABILITIES

Plasmacyte

Once per battle for each Plasmacyte this unit has, when this unit is selected to fight, you can use this ability. If you do, until the end of the phase, melee weapons equipped by models in this unit have the [DEVASTATING WOUNDS] ability.

Tunnelling Horrors

At the end of your opponent's turn, if this unit is unengaged, you can use this ability. If you do:

- Place this unit in strategic reserves.
- This unit must make an ingress move in your next Movement phase (including in your first turn).

CORE RULES

◆ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ Feel No Pain 5+

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

Master Chronomancer

While this model is leading a unit, models in that unit have a 4+ invulnerable save.

The Stars Are Right

Once per battle, at the start of the Fight phase, this model can use this ability. If it does, until the end of the phase, triple the Attacks and Strength characteristics of this model's Staff of Tomorrow and every successful Wound roll made for this model's attacks scores a Critical Wound.

Leader

This model can be attached to the following units:

- IMMORTALS
- NECRON WARRIORS

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

CORE RULES

Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

Support

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it.

ONE SHOT

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its [ONE SHOT] weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all [ONE SHOT] weapons in that unit can be selected to make attacks with once per battle.

WEAPON RULES

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

RAPID FIRE

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

ABILITIES

Phase-shifted Cover

Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this FORTIFICATION, that model has the Benefit of Cover against that attack.

Teleportation Matrix

Once per battle, at the end of your opponent's turn, if this FORTIFICATION is not within Engagement Range of one or more enemy units, you can remove it from the battlefield. In the Reinforcements step of your next Movement phase, set it up anywhere on the battlefield that is more than 9" horizontally away from all enemy models. If the battle ends and this FORTIFICATION is not on the battlefield, it is destroyed.

WEAPON RULES

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

CORE RULES

◆ **Deadly Demise D3**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

Terrifying Monstrosity

At the start of the Fight phase, each enemy unit within Engagement Range of one or more units with this ability must take a Battle-shock test.

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

◆ **Deadly Demise D6+2**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

CORE RULES

◇ Deadly Demise 1

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

Damaged: 1-8 wounds remaining
While this model has 1-8 wounds remaining, subtract 4 from its Objective Control characteristic and you can only select one of the C'tan Powers weapons in your Shooting phase, instead of two.

Powers of the C'tan
In your Shooting phase, when this model is selected to shoot, first select up to 2 different C'tan Powers weapons. WEAPON RULES

ANTI

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

INDIRECT FIRE

Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).

PRECISION

While resolving attacks made with one or more [PRECISION] weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

CORE RULES

◆ Deadly Demise D6+3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

ABILITIES

Damaged: 1-6 wounds remaining
While this unit's Szarekh model has 1-6 wounds remaining, halve the Attacks characteristic of that model's weapons, and each time this unit makes an attack, subtract 1 from the Hit roll.

The Silent King (Aura)
While a friendly NECRONS unit is within 6" of this unit's Szarekh model, improve that unit's Leadership characteristic by 1.

Triarchal Menhirs
If this unit's Szarekh model is destroyed, all of this unit's remaining Triarchal Menhir models are also destroyed.

Voice of the Triarch
At the start of the battle round, select one Triarch ability. Until the start of the next battle round, this unit has that ability.

Phaeron of the Stars (Aura) (Triarch Abilities)
Effect: While a friendly Necrons unit (excluding Monster units) is within 6" of this unit's Szarekh model, each time a model in that unit makes an attack, re-roll a Hit roll of 1 and re-roll a Wound roll of 1.

Phaeron of the Blades (Aura) (Triarch Abilities)
Effect: While a friendly Necrons (excluding Monster units) unit is within 6" of this unit's Szarekh model, you can re-roll Charge rolls made for that unit and each time a model in that unit makes a melee attack, add 1 to the Strength characteristic of that attack.

Relentless March (Aura) (Triarch Abilities)

Effect: While a friendly NECRONS unit is within 6" of this unit's Szarekh model, add 2" to the Move characteristic of models in that unit.

WEAPON RULES

ASSAULT

Units containing one or more models with an **[ASSAULT]** weapon can shoot using **assault** shooting (10.05).

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ Deep Strike

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

◆ Scouts 9"

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
- If that unit is wholly within your deployment zone, it can make a scout move.
- If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

◆ Stealth

ABILITIES

Damaged: 1-15 wounds remaining

While this model has 1-15 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

Fortification

While an enemy unit is only within Engagement Range of one or more Fortifications from your army:

- That unit can still be selected as the target of ranged attacks, but each time such an attack is made, unless it is made with a Pistol, subtract 1 from the Hit roll.
- Models in that unit do not need to take Desperate Escape tests due to Falling Back while Battle-shocked, except for those that will move over enemy models when doing so.

Phased Cover

Each time a ranged attack is allocated to a model, if that model is not fully visible to every model in the attacking unit because of this Fortification, that model has the Benefit of Cover against that attack.

Ziggurat Dock

One friendly Monolith, Obelisk, Tesseract Vault or Sentry Pylon model can start the battle on top of this Fortification's ziggurat platform. While such a model is on this platform, that model's ranged weapons have the [HEAVY] ability. Any friendly model can be set up or end any type of move on the ramps or platform sections of this Fortification.

WEAPON RULES

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

SUSTAINED HITS

Distortion Fields (Aura)
While an enemy unit is within 6" of this unit, it is unravelling. While an enemy unit is unravelling, each time an attack targets that unit, improve the Armour Penetration characteristic of that attack by 1.
At the start of each phase, for each Necrons Monster unit from your army, that unit can suffer 3 mortal wounds. If it does, until the end of the phase, the range of that unit's Distortion Fields Aura ability is increased to 9".

Enslaved Star God
This model cannot be your WARLORD.

Necrodermis
Each time an attack is allocated to this model, subtract 1 from the Damage characteristic of that attack.

Relativistic Tether
In your turn, when this unit makes an ingress/advance move using its Transdimensional Displacement ability, this unit can end that move more than 6" horizontally from all enemy units (instead of more than 8"). When this unit ends that move within 8" of an enemy unit, this unit is not eligible to declare a charge until the end of the turn.

Transdimensional Displacement
In your Movement phase, when this unit is selected to make an advance move, you can use this ability. If you do:
- That advance move has no maximum distance.
- This unit can move through all types of model (including enemy models and MONSTER/VEHICLE models).
- After moving, this unit must be more than 8" horizontally from all enemy units.

WEAPON RULES

ASSAULT
Units containing one or more models with an **ASSAULT** weapon can shoot using **assault** shooting (10.05).

SUSTAINED HITS
This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.
*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

CORE RULES

◆ **Deadly Demise D6**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ **Deep Strike**

Each time this unit makes an ingress move (20.04), if every model in this unit has this ability, it can be set up anywhere on the battlefield that is more than 8" horizontally from all enemy units, even if that is within your opponent's deployment zone.

◆ **Feel No Pain 5+**

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

◆ **Reanimation Protocols**

While this model is leading a unit, at the end of your Command phase, if that unit is within range of an objective marker you control, that objective marker remains under your control, even if you have no models within range of it, until your opponent controls it at start or end of any turn.

Surrogate Hosts

At the start of your Command phase, if this model is on the battlefield, you can select one other friendly NECRONS INFANTRY CHARACTER model on the battlefield (excluding SKORPEKH LORD or EPIC HERO models). The selected model is destroyed (ignoring any rules that are triggered when a model is destroyed) and this model is put in its place, with all of its wounds remaining (if the selected model was leading a unit, this model now attaches to that unit as its Leader).

Leader

This model can be attached to the following units:

- IMMORTALS
- Lychguard
- NECRON WARRIORS

WEAPON RULES

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).

CORE RULES

- Leader**
Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.
- Reanimation Protocols**
If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a **DEVASTATING WOUNDS** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **DEVASTATING WOUNDS** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **DEVASTATING WOUNDS** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

PISTOL

PISTOL and **CLOSE-QUARTERS** are identical for all rules purposes.

Units containing one or more models with a **CLOSE-QUARTERS** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding **MONSTER/VEHICLE** models), you can only select one of the following to make attacks with:

ABILITIES

Targeting Relay

In your Shooting phase, after this model has shot, select one enemy unit hit by one or more of those attacks. Until the end of the phase, that unit cannot have the Benefit of Cover.

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

LETHAL HITS

Each time an attack made with a [LETHAL HITS] weapon results in a critical hit, you can choose for that attack to automatically wound the target.

Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as [DEVASTATING WOUNDS].

MELTA

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

CORE RULES

◇ Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Reanimation Protocols

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

◇ Scouts 8"

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.
- If that unit is wholly within your deployment zone, it can make a scout move.
- If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

ABILITIES

Adaptive Strategy

This model's unit is eligible to shoot and declare a charge in a turn in which it Fell Back.

Engrammatic Logic

Once per battle, at the start of any phase, you can select one friendly Necrons unit that is Battle-shocked and within 12" of this model. That unit is no longer Battle-shocked.

Harbinger of Despair

Once per battle round, at the start of a phase during your turn, you can select one enemy unit within 18" of this model. That unit must make a Battle-shock test, subtracting 1 from the test when it does so.

Harbinger of Destruction

Each time a model in this unit makes a ranged attack, an unmodified Hit roll of 5+ scores a Critical Hit.

Living Lightning

In your Shooting phase, select one enemy unit within 18" of and visible to this model and roll 4 D6: for each 4+, that enemy unit suffers 1 mortal wound.

My Will Be Done

Once per battle round, one unit from your army with this ability can be targeted with a Stratagem for OCP, even if you have already targeted a different unit with that Stratagem this phase.

Targeting Relay

In your Shooting phase, after this model has shot, select one enemy unit hit by one or more of those attacks. Until the end of the phase, that unit cannot have the Benefit of Cover.

Timesplinter Mantle

While this model is leading a unit, each time an attack targets that unit, subtract 1 from the Hit roll.

United in Destruction

While this model is leading a unit, melee weapons equipped by models in that unit have the [Lethal Hits] ability.

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

ONE SHOT

Each weapon with this ability can only be selected to make attacks with once per battle.

If a destroyed model is returned to a unit, all of its **[ONE SHOT]** weapons that have already been selected to make attacks with during the battle cannot be selected to make attacks with again.

If a new unit is added to an army, all **[ONE SHOT]** weapons in that unit can be selected to make attacks with once per battle.

PISTOL

[PISTOL] and **[CLOSE-QUARTERS]** are identical for all rules purposes.

Units containing one or more models with a **[CLOSE-QUARTERS]** weapon can shoot using close-quarters shooting (10.06). When using another shooting type, for each model in that unit (excluding **MONSTER/VEHICLE** models), you can only select one of the following to make attacks with:

- One or more of its **[CLOSE-QUARTERS]** weapons.
- One or more of its other ranged weapons.

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ **Deadly Demise D3**

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.

◆ **Scouts 8"**

This ability always takes the form Scouts X". In the Resolve Pre-battle Abilities step, if every model in a unit has this ability, you can do one of the following:

- If that unit is in strategic reserves, you can set up that unit anywhere that is wholly within your deployment zone.

- If that unit is wholly within your deployment zone, it can make a scout move.

- If that unit is embarked within a DEDICATED TRANSPORT that is wholly within your deployment zone, and if every model embarked within that DEDICATED TRANSPORT has the Scouts ability, that DEDICATED TRANSPORT can make a scout move.

ABILITIES

CORE - Leader

Ghostwalk Mantle

While this model is leading a unit, models in that unit have the Fights First ability.

The Vargard's Duty

While this model is in the same unit as NEMESOR ZAHNDREKH, CHARACTER models in that unit have the Feel No Pain 4+ ability.

Leader

This model can be attached to the following units:

- IMMORTALS
- LYCHGUARD
- NECRON WARRIORS

You can attach this model to one of the above units even if NEMESOR ZAHNDREKH has already been attached to it. If it is, and that Bodyguard unit is destroyed, the Leader units attached to it become separate units, with their original Starting Strengths.

WEAPON RULES

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

PRECISION

While resolving attacks made with one or more **[PRECISION]** weapons, at the start of the Allocation Order step (05.03), if the target unit contains one or more CHARACTER models visible to one or more of the attacking models, the active player can select one allocation group that contains one of those visible CHARACTER models. If they do, until those attacks are resolved, or until that CHARACTER group is destroyed (whichever happens first), that CHARACTER group is the current allocation group.

CORE RULES

◆ **Feel No Pain 4+**

This ability always takes the form Feel No Pain X+. Each time a model with this ability would lose a wound, roll one D6: on an X+, that wound is not lost.

◆ **Fights First**

While every model in a unit has this ability, that unit is a Fights First unit.

See the Resolve Fights First Combats step in the Fight phase (12.04).

◆ **Leader**

Before the battle, in the Muster Armies step, for each leader and support unit in your army, you can select one friendly bodyguard unit that unit can lead. That unit will then lead that bodyguard unit for the battle and form an attached unit with it. Unless otherwise stated, each bodyguard unit can only have one leader unit and one support unit attached to it.

◆ **Reanimation Protocols**

If your Army Faction is NECRONS, at the end of your Command phase, each friendly unit with this ability that is on the battlefield activates its Reanimation Protocols:

- When a unit's Reanimation Protocols activate, that unit heals D3 wounds.
