BONDSMAN

Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

When you draw a line from the closest part of one foundation marker to the closest part of the other, if any part of a model's base (or any part of a model's hull, for a model without a base) crosses that line, that model's unit is said to be on your defensive line.

ENHANCEMENTS (4)

Crushing Condemnation

10 pts

Imperial Knights model only. When the bearer is selected to fight, after resolving its attacks, if one or more enemy units were destroyed by those attacks, the bearer can use this Enhancement. If it does, this Enhancement is expended, then select one enemy unit that is not within Engagement Range of any units from your army and is within 12" of and visible to the bearer. Roll six D6: for each 4+, that enemy unit suffers 1 mortal wound.

Wyrm Slayer Divination

10 pts

Imperial Knights model only. In your Shooting phase, when the bearer is selected to shoot, it can use this Enhancement. If it does, this Enhancement is expended, then until the end of the phase, each time it makes an attack that targets a unit that can Fly, you can re-roll the Hit roll.

Herald of Triumph

15 pts

Imperial Knights model only. When the bearer ends a Charge move, it can use this Enhancement. If it does, this Enhancement is expended, the each enemy unit within Engagement Range of the bearer must take a Battle-shock test, subtracting 1 from the result.

Pennant of Silvered Fury

15 pts

Imperial Knights model only. When the bearer is selected to fight, it can use this Enhancement. If it does, this Enhancement is expended, then until the end of the phase, melee equipped by the bearer have the [SUSTAINED HITS 2] ability.

DETACHMENT RULE

At the start of your turn, if your current Oath is fulfilled, determine an additional Oath, with the exception that you cannot select a Deed or Quality you have already selected (if you are randomly selecting the Deed and/or Quality and roll any result that you have already selected, select a Deed or Quality you have not already selected instead). If you cannot determine an additional Oath because you have already selected each Deed and each Quality, do not determine an additional Oath.

The Qualities from Oaths you have fulfilled continue to apply to all models in your army with the Code Chivalric ability. When the Deed for an additional Oath is completed, you instead gain 1CP, regardless of how you selected the Deed or Quality.

Imperial Knights model only. While two or more Armiger models are under the effects of the bearer's Bondsman ability, melee weapons equipped by those Armiger models have the [PRECISION] ability.

Mentor's Pride

20 pts

AUFSTELLUNG

1x Acastus Knight Asterius

Equipped with: Asterius volkite culverin, Karacnos mortar battery, Twin conversion beam cannon, Titanic feet

ABILITIES

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Sunderer of Fortresses

Each time this model makes an attack that targets a VEHICLE, improve the Strength and Damage characteristics of that attack by 1. If that attack targets a FORTIFICATION, improve the Strength and Damage characteristics of that attack by 2 instead.

WEAPON RULES

ANTI

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

INDIRECT FIRE

Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

◇ Deadly Demise 2D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).

- This model can replace its Acastus ironstorm missile pod with Helios defence missiles.

ABILITIES

Bastion of Firepower

Each time this model Remains Stationary, until the end of the turn, ranged weapons equipped by this model have the LETHAL HITS ability.

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

HEAVY

In your Shooting phase, each time an attack is made with a **[HEAVY]** weapon, add 1 to the hit roll if all of the following apply to the attacking unit:

- That unit is unengaged.
- That unit was not set up on the battlefield this turn.
- No model in that unit has moved more than 3" this turn.

INDIRECT FIRE

Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

CORE RULES

◇ Deadly Demise 2D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

While this model has 1-5 wounds remaining, subtract 3 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Suppression Protocols

In your Shooting phase, after this model has shot, select one enemy unit (excluding Monsters and Vehicles) hit by one or more of those attacks made with an Armiger autocannon. Until the start of your next turn, that enemy unit is suppressed. While that unit is suppressed, each time a model in that unit makes an attack, subtract 1 from the Hit roll.

WEAPON RULES

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

Protection Protocols

- That use is -1 CP.
- That use does not prevent any uses of that stratagem on other units this phase.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

This model has a 5+ invulnerable save against ranged attacks.

WEAPON RULES

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

CORE RULES

Deadly Demise D3

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

ABILITIES

Chainbreaker

Once per battle, at the start of any phase, you can select one friendly Imperium unit that is Battle-shocked and within 12" of this model. That unit is no longer Battle-shocked.

Damaged: 1-9 Wounds Remaining

While this model has 1-9 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5++)

This model has a 5+ invulnerable save against ranged attacks.

Legendary Freeblade

Once per turn, you can target this model with a Stratagem for OCP, and can do so even if you have already targeted a different unit with that Stratagem in the same phase.

Using Sir Hekhtur

If your Canis Rex model is destroyed, this model is treated as a model disembarking from a destroyed Transport and must perform an Emergency Disembarkation. Sir Hekhtur cannot be selected as the target of any of your Stratagems other than Core Stratagems. Your Canis Rex unit is not considered to be destroyed until Sir Hekhtur is also destroyed.

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

◆ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Lone Operative

Unless part of an attached unit, this unit is not visible to enemy models unless they are within 12" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within 12" of this unit.

If this ability takes the form Lone Operative X", unless part of an attached unit, this unit is not visible to enemy models unless they are within X" of this unit, and it cannot be targeted by [INDIRECT FIRE] weapons unless the attacking model is within X" of this unit.

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).

ABILITIES

Acheron's Duty (Bondsman)

While a model is affected by this ability, at the start of the Fight phase, each enemy unit within Engagement Range of one or more units with this ability must take a Battle-shock test, subtracting 1 from the result when they do.

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Searing Flames

In your Shooting phase, after this model has shot, select one enemy unit hit by one or more of those attacks made with an Acheron flame cannon. Until the end of the phase, that enemy unit cannot have the Benefit of Cover.

WEAPON RULES

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

*Example: An attack made with a **[SUSTAINED HITS 2]** weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the **[SUSTAINED HITS 2]** ability).*

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ Bondsman

Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

◆ Deadly Demise D6+2

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

ABILITIES

Atrapos' Duty (Bondsman)

While a model is affected by this ability, each time that model makes an attack that targets a TITANIC or TOWERING model, you can re-roll the Hit roll and you can re-roll the Wound roll.

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Macro-extinction Protocols

Each time this model makes an attack that targets a MONSTER or VEHICLE unit, add 1 to the Hit roll. If that target is TITANIC or TOWERING, add 1 to the Wound roll as well.

WEAPON RULES

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

HAZARDOUS

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

CORE RULES

ABILITIES

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Ion Aegis (Aura)

While a friendly Armiger model is within 6" of this model, each time a ranged attack targets that model, it has the Benefit of Cover against that attack.

Titan Hunter

Each time a ranged attack made by this model is allocated to a Monster or Vehicle model, you can re-roll the Damage roll.

WEAPON RULES

ANTI

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

HAZARDOUS

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of [HAZARDOUS] weapons you selected in the Select Weapons step.

MELTA

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

◆ Deadly Demise D6+2

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.

Equipped with: Avenger gatling cannon, Heavy flamer, Icarus autocannons, Ironstorm missile pod, Meltagun, Questoris heavy stubber, Rapid-fire battle cannon, Stormspear rocket pod, Thermal cannon, Titanic feet

Wargear Options:

- This model can replace its Thermal cannon with Rapid-fire battlecannon and Questoris heavy stubber.

ABILITIES

Crusader's Duty (Bondsman)

While a model is affected by this ability, each time that model makes a ranged attack, add 1 to the Hit roll.

Damaged: 1-9 Wounds Remaining

While this model has 1-9 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Punishing Salvos

In your Movement phase, if this model Remains Stationary, until the end of the turn, ranged weapons equipped by this model have the [SUSTAINED HITS 1] ability.

WEAPON RULES

ANTI

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

INDIRECT FIRE

Units containing one or more models with an [INDIRECT FIRE] weapon can shoot using indirect shooting (10.07).

MELTA

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

RAPID FIRE

This ability always takes the form [RAPID FIRE X]. Each time you gather attack dice for a [RAPID FIRE] weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

SUSTAINED HITS

This ability always takes the form [SUSTAINED HITS X]. Each time an attack made with a [SUSTAINED HITS] weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

◆ Bondsman

Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

◆ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.
- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).

Invulnerable Save (4+*)

This model has a 4+ invulnerable save against ranged attacks.

Selfless Protector

Warden's Duty (Bondsman)

While a model is affected by this ability, each time an attack is allocated to that model, subtract 1 from the Damage characteristic of that attack.

WEAPON RULES

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

HAZARDOUS

Each time a unit is selected to shoot or selected to fight, after that unit has resolved all of its attacks, make a number of hazard rolls (06.03) for that unit equal to the number of **[HAZARDOUS]** weapons you selected in the Select Weapons step.

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

*Example: An attack made with a **[DEVASTATING WOUNDS]** weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.*

INDIRECT FIRE

Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

*Example: An attack made with an **[ANTI-VEHICLE 4+]** weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an **[ANTI-PSYKER 2+]** weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.*

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

*Example: If a **[BLAST 2]** weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).*

INDIRECT FIRE

Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.67).

LANCE

Each time an attack is made with a **[LANCE]** weapon, if the attacking model's unit made a charge move this turn, add 1 to the wound roll.

LETHAL HITS

Each time an attack made with a **[LETHAL HITS]** weapon results in a critical hit, you can choose for that attack to automatically wound the target.

*Designer's Note: Choosing to automatically wound the target means that no wound roll is made for that attack. You may decide against this, as it means that attack cannot result in a critical wound and so cannot trigger other abilities such as **[DEVASTATING WOUNDS]**.*

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

*Example: A model targets a unit that is within half range of a **[MELTA 2]** weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.*

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

*Example: If a **[RAPID FIRE 1]** weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).*

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

CORE RULES

◆ Bondsman

Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

◆ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.

- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).

ABILITIES

Damaged: 1-9 Wounds Remaining

While this model has 1-9 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Exemplar of the Code

At the start of the battle, select one unit from your opponent's army to be this model's quarry. Each time this model makes an attack that targets its quarry, you can re-roll the Wound roll. Each time this model's quarry is destroyed, you can select a new unit from your opponent's army to be its quarry.

Invulnerable Save (5+)

This model has a 5+ invulnerable save against ranged attacks.

Mentor (Bondsmen)

Each time a model affected by this ability makes an attack that targets this model's quarry, you can re-roll the Wound roll.

ABILITIES

Damaged: 1-10 Wounds Remaining

While this model has 1-10 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Ion Aegis (Aura)

While a friendly Armiger model is within 6" of this model, each time a ranged attack targets that model, it has the Benefit of Cover against that attack.

Thundershock

In your Shooting phase, each time you select a target for this model's thundercoil harpoon, roll one D6 for the target unit and one D6 for each other enemy unit within 6" of the target unit. On a 4+, the unit being rolled for is struck by arcing energies; after resolving all of this model's attacks against the target unit, each unit struck by arcing energies suffers D3 mortal wounds.

WEAPON RULES

ANTI

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

MELTA

This ability always takes the form [MELTA X]. Each time a model makes an attack with a [MELTA] weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

◇ Deadly Demise D6+2

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◇ Super-Heavy Walker

ABILITIES

Damaged: 1-9 Wounds Remaining

Invulnerable Save (5+*)

This model has a 5+ invulnerable save against ranged attacks.

Thin Their Ranks

Each time this model makes a ranged attack that targets an enemy unit (excluding Monsters and Vehicles), that attack has the DEVASTATING WOUNDS ability.

Warden's Duty (Bondsman)

While a model is affected by this ability, weapons equipped by that model have the SUSTAINED HITS 1 ability, and ranged weapons equipped by that model have the IGNORES COVER ability.

WEAPON RULES

ANTI

This ability always takes the form **[ANTI-X Y+]**. Each time an attack is made with an **[ANTI]** weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a **[BLAST]** weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form **[BLAST X]**, each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a **[DEVASTATING WOUNDS]** weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by **[DEVASTATING WOUNDS]** weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an **[IGNORES COVER]** weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

INDIRECT FIRE

Units containing one or more models with an **[INDIRECT FIRE]** weapon can shoot using indirect shooting (10.07).

MELTA

This ability always takes the form **[MELTA X]**. Each time a model makes an attack with a **[MELTA]** weapon, if the target unit was within half range of that weapon in the Select Targets step, until the attacking unit's attacks have been resolved, add X to that weapon's D characteristic.

Example: A model targets a unit that is within half range of a [MELTA 2] weapon with a D characteristic of D6. While resolving those attacks, that weapon has a D characteristic of D6+2.

RAPID FIRE

This ability always takes the form **[RAPID FIRE X]**. Each time you gather attack dice for a **[RAPID FIRE]** weapon, add X additional attack dice if the target unit was within half range of that weapon in the Select Targets step.

Example: If a [RAPID FIRE 1] weapon with an A characteristic of 1 targets a unit that is within half range, you would gather one additional attack dice for that weapon (for a total of two for that weapon).

SUSTAINED HITS

This ability always takes the form **[SUSTAINED HITS X]**. Each time an attack made with a **[SUSTAINED HITS]** weapon results in a critical hit, that attack results in a number of additional hits on the target as denoted by X.

Example: An attack made with a [SUSTAINED HITS 2] weapon results in a critical hit. That attack therefore hits the target three times (once from the critical hit, and twice more from the [SUSTAINED HITS 2] ability).

TORRENT

Each time an attack is made with a **[TORRENT]** weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a **[TWIN-LINKED]** weapon, you can re-roll the wound roll.

While this model has 1-9 wounds remaining, subtract 5 from this model's Objective Control characteristic and each time this model makes an attack, subtract 1 from the Hit roll.
- Grav-pinned**
In your Shooting phase, after this model has shot, if an enemy INFANTRY unit was hit by one or more of those attacks made with a graviton crusher, until the end of your opponent's next turn, that enemy unit is grav-pinned. While a unit is grav-pinned, subtract 2 from that unit's Move characteristic and subtract 2 from Charge rolls made for that unit.
- Styrix's Duty (Bondsman)**
While a model is affected by this ability, each time that model is selected to shoot or fight, after it has resolved all of its attacks, select one enemy unit hit by one or more of those attacks; that unit must take a Battle-shock test, subtracting one from the test when doing so.

WEAPON RULES

ANTI

This ability always takes the form [ANTI-X Y+]. Each time an attack is made with an [ANTI] weapon, if the target unit has the keyword denoted by X, an unmodified wound roll of Y+ is a critical wound.

Example: An attack made with an [ANTI-VEHICLE 4+] weapon against a Vehicle unit will result in a critical wound on an unmodified wound roll of 4+, while an attack made with an [ANTI-PSYKER 2+] weapon against a Psyker unit will result in a critical wound on an unmodified wound roll of 2+.

BLAST

Each time you gather attack dice for a [BLAST] weapon, add one additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down). If this ability takes the form [BLAST X], each time you gather attack dice for such a weapon, add X additional attack dice for every five models that were in the target unit in the Select Targets step (rounding down) instead.

Example: If a [BLAST 2] weapon with an A characteristic of 3 targets a unit containing 12 models, you would gather four additional attack dice for that weapon (for a total of seven for that weapon).

DEVASTATING WOUNDS

Each time an attack made with a [DEVASTATING WOUNDS] weapon results in a critical wound, the attack sequence for that attack ends and the target unit suffers a number of mortal wounds equal to the D characteristic of that weapon. These are inflicted after resolving any normal damage inflicted by those attacks.

Mortal wounds inflicted by [DEVASTATING WOUNDS] weapons can damage a maximum of one model for each critical wound; any remaining mortal wounds inflicted by that attack are lost.

Example: An attack made with a [DEVASTATING WOUNDS] weapon with a D characteristic of 3 results in a critical wound against an Intercessor Squad, so inflicts 3 mortal wounds. The first 2 mortal wounds are sufficient to destroy 1 Intercessor model, so the remaining mortal wound is lost.

IGNORES COVER

Each time an attack is made with an [IGNORES COVER] weapon, the target cannot have the benefit of cover against that attack (13.08), including from rules that give a model or unit the benefit of cover (e.g. Stealth).

TORRENT

Each time an attack is made with a [TORRENT] weapon, that attack automatically hits the target.

TWIN-LINKED

Each time an attack is made with a [TWIN-LINKED] weapon, you can re-roll the wound roll.

CORE RULES

◆ Bondsman

Some Imperial Knights models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly Armiger model within 12" of that model (you cannot select an Armiger model that is already being affected by a Bondsman ability). Until the start of your next Command phase, that Armiger model is affected by that Bondsman ability.

◆ Deadly Demise D6

This ability always takes the form Deadly Demise X. Each time a model in this unit is destroyed, after the units embarked within it (if any) have made their emergency disembark moves, roll one D6. On a 6, that model suffers a deadly demise; each unit within 6" of that model suffers a number of mortal wounds denoted by X (if this is a random number, roll separately for each unit within 6").

◆ Super-Heavy Walker

Each time a unit with this ability makes a normal, advance or fall-back move:

- Models in that unit can move through models (including MONSTER/VEHICLE models, but excluding TITANIC models) and can move horizontally through sections of terrain features that are 4" or less in height.

- Before moving that unit, you can select for all models in that unit to have the MOBILE keyword until that move ends. If you do, when that move ends, roll one D6: on a 1, that unit is battle-shocked.

Designer's Note: Gaining the MOBILE keyword for the duration of a move will enable models in that unit to move horizontally through dense terrain features (13.06).
